"The function of education is to teach one to think intensively and to think critically. Intelligence plus character that is the goal of true education" – Martin Luther King, Jr.

The world of 21st century is changing at an accelerated scale in every sphere of life. It is a challenge for educators to cope with the changing world order and prepare their students for the future. It has rightly been said by Margaret Mead, "Children need to be taught how to think, not what to think."

St. Vincent's School, Chennai has withstood change since its inception in 1990 and caters to the needs and aspirations of the society at large. It has always tried to inculcate creativity, critical thinking, innovation, divergent thinking along with proper values of life for its students. The school conducts an array of activities throughout the year bringing out all these skills among children.

This addition of the school magazine "SVS Compass" gives space to imagination and unlocks the thoughts and values of children and staff. It unfolds a wide spectrum of creative skills which includes not only writing and designing but also editing the magazine.

The creativity of children found in this magazine is only because of strenuous efforts of the editorial board and the active participation of students, needless to say the committed and supportive management, dedicated and caring staff, cooperative parents who worked in the backdrop to bring out the best in children.

With regards.
Principal

Need of a goal in one's life.

With the help of the parents and the teachers' children should have a goal in their life. If they succeed in creating a right goal in their children or students, they have fulfilled their mission entrusted to them by God. Often teachers and parents become selfish in fulfilling their responsibility towards their children. Instead of helping the young ones to find a goal fitting to their God-given talents, they motivate their children to find financial security and social status for their children. Indirectly, they seek their own life security in their old age or retired life. And they end up in utter disappointment and longlines.

Once Vincent, the patron saint of our school, was in search of financial security. Some generous lady promised a great sum of money. And Vincent was on his way to possess that wealth. While he was travelling, he was captured by sea pirates. And Vincent was sold as a slave to a rich man. While he lived as a slave he began to think of his real duty as a child of God. With God's help he came out of that miserable situation and began to live for his unfortunate brethren. In other words, he began to live for God and man. And Vincent is the first man to speak against slavery which was the order of the time.

In fact, every human being is sent to this world to radiate God's love here on Earth. And thereby introduce God as the creator and Father of us all. In other words, a true child of God always seeks God's plan for him and for his fellow being. Only by this can one be a true human being, brother and sister of the other. When one finds God's hand with him or her and establishes a good companionship with God, he will be a person for the other. And he will lack nothing, as God is with him. The parents and teachers can be satisfied with their job if they have helped to establish a good relationship between God and their students or children.

Such children we call good students and later good personalities radiating God's love on Earth. They are the ones who have a goal in their life.

Dear Students, Faculty, and Alumni of St. Vincent's Matriculation Higher Secondary School,

I am honored to address you in our school magazine. Reflecting on our journey fills me with immense pride for our growth and achievements. William Wordsworth's lines resonate deeply:

"For, oft, when on my couch I lie
In vacant or in pensive mood,
They flash upon that inward eye,
Which is the bliss of solitude;
And then my heart with pleasure fills,
And dances with the daffodils."

The experiences of our school days are treasures that stay with us for a lifetime. Later, as you rest on your couch, these daffodils will dance before your eyes, filling your heart with an inexplicable joy.

This year, like every other, has been filled with learning and challenges. Despite obstacles, our school has continued to shine, imparting knowledge, character, and integrity. As Albert Einstein said, "Imagination is more important than knowledge." Our commitment to holistic education has enabled us to excel in academics, sports, and service.

Recent events remind us of the power of perseverance and leadership. Just as elections shape the future of a nation, our efforts and achievements shape the future of our school. What truly matters is the perseverance and commitment you demonstrate every day.

To our teachers and staff, thank you for your unwavering dedication and passion. You inspire us to chase our dreams. To the students, continue striving for excellence and view challenges as opportunities. As we look to the future, let's remember that every achievement reflects our hard work and spirit. Friedrich Nietzsche once said, "What does not kill us makes us stronger." I believe future generations will carry this legacy with pride and commitment.

Thank you for being part of this journey. Rest assured, the days you cherish today will always be filled with beauty, as Shakespeare writes:

"To me, fair friend, you never can be old,
For as you were when first your eye I eyed,
Such seems your beauty still."

Let's continue to create an environment where learning never stops, and every student has the chance to flourish.

Editorial

"The Lord has done great things for us, and we are filled with joy" Psalm 126: 3

Dear readers

It gives me immense pleasure to unleash the 35th edition of our school magazine. A school magazine itself is an institution that prepares its contributors to actively participate in whatever is going on around them. As their expression is given rightful exposure, they learn to express themselves confidently.

This magazine also expresses the school spirit, which is built up within the school through the collective actions, thoughts and aspirations. All these, I believe, would spur higher growth and enterprise in children.

This herculean task of editing the school magazine wouldn't have been possible without the sincere support of the members of the editorial board.

I take the opportunity to thank all the budding writers and the artists, as their contribution is the reason that makes this edition endearing to our readers.

I am thankful to all my colleagues, with a special mention to our dear Principal, Vice Principal for entrusting us with the responsibility of publishing this edition.

I hereby wish all the readers my best wishes. I hope this edition will earn your critical acclaim and prove itself to play a vital role in nurturing the creative deeds of children.

**Ms. Eunice. C
Chief Editor**

OBEDIENCE THE GOLDEN VIRTUE

Obedience is the crown and glory of all virtues. -Martin Luther

The word obedience comes from the Latin word "obedire," which means "listen to." It is the readiness or willingness to yield to the wishes of others. Obedience is connected to trust and respect.

OBEDIENCE TO GOD

Blessed rather are those who hear the word of God and obey it. - Luke 11:28

When we hear the word of God it is a sign that we really trust Him. Obedience to God is an act of worship our love for God. Only God knows what is best for us and for our happiness. When we obey God, it brings success in our lives, and we receive His blessings.

Obedience to God is and it demonstrates God. Only God best for us and for When we obey lives, and we receive

OBEDIENCE TO PARENTS

My son, keep your father's command and do not forsake your mother's teaching. - Proverbs 6:20

Parents are the best gift given to us by God. Our parents always do what is good for us, and they guide and protect us in our lives. Their love for us is selfless. The best gift that we can give back to them is our obedience towards them. Every child's first lesson is obedience, and obedience begins at home. Listening to our parents will show that we respect them and their wishes. The advice given by our parents is like a treasure map; when we follow it, we will find good things in life, and when we ignore it, we might get lost along the way.

OBEDIENCE TO TEACHERS

Behind every child who believes in himself is a teacher who believed in them first.

Teachers are our second parents. Teachers are always there to help the students. They care for the students, mould the students, impart knowledge to the students, and teach the students to handle the problems in life. Obeying our teachers is a sign of showing respect and gratitude for the knowledge they provide. Being respectful to our teachers enables us to succeed in life.

Obedience brings happiness and builds our character. It is an act of self-discipline. It makes our lives easier and binds one with another. Let us inculcate the golden virtue of obedience, and this will lead us to a happy and prosperous life.

Ms. Isabella . F
Staff Secretary

Every challenge brings an opportunity to grow.

Every task is a chance to lead with purpose.

Every moment holds a potential for change.

And every day is a canvas for your impact.

"School days are the canvas where we paint our dreams, make lasting memories, and prepare ourselves for the colorful journey of life ahead!" The memories of school life often hold a special place in our hearts, as they are filled with a mix of joy, laughter, challenges, and learning experiences. School life is the most pleasant time in everyone's life. It remains a blissful memory in their later lives. One feels very happy when he/she recalls the old memories of their school life.

"That first day was the beginning of a journey, one that would shape in ways I could never have Imagined."

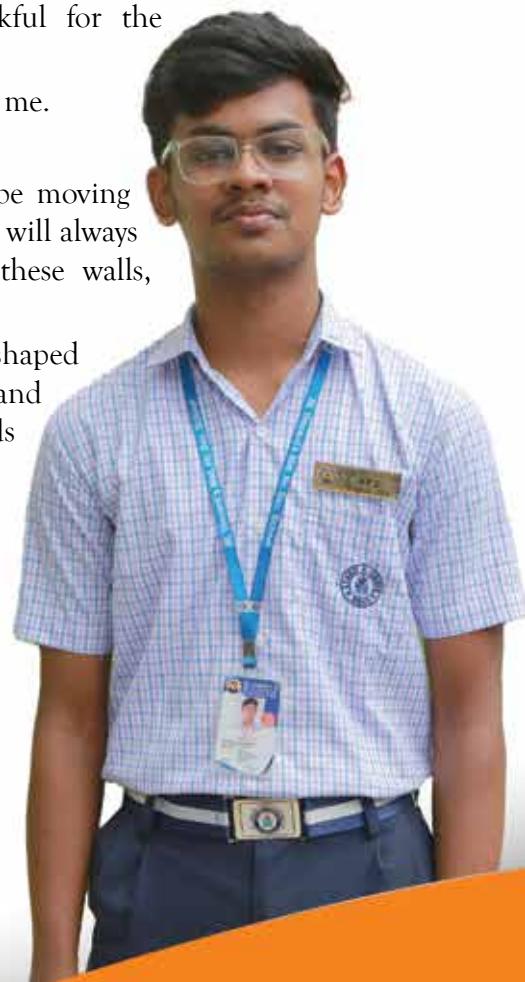

The excitement and nervousness of starting a new grade or entering a new school are unforgettable. When I look back to the days, 14 years ago in 2011, I still remember my first day of school in LKG like it was yesterday. I held on to my parent's hands a little tighter, unsure of what to expect but also eager to explore the place where I would spend so many of my formative years. My childhood memories are not just stories of the past; they are the foundation upon which I've built my present and will continue to build my future.

"Dreams are not what you see in sleep, it is the thing that doesn't let you sleep." I always had the dream of becoming SPL of St. Vincent's school and wanted to see my name placed on the achievement board. On the 26th of June 2024, the day I was selected as the school pupil leader and was honored with the SPL badge, a wave of emotions hit me - pride, excitement, and a little bit of nervousness. That moment marked the beginning of a new chapter in my school life. As an SPL, my role extended beyond just wearing a badge of honor. It

involved being a bridge between the students and the school administration, representing students' concerns, and ensuring a positive school environment. **"The more we express our gratitude, the more things we will have to be grateful for."** I would like to express my deepest gratitude to our principal, Rev. Dr. Estheppan Thomas and the school management for entrusting me with the role of School Pupil Leader. Being chosen for this position is an honor that I don't take lightly, and I'm incredibly thankful for the confidence

you've placed in me.

Though I may be moving on, a part of me will always remain within these walls, cherishing the moments that shaped my journey and Our SVS "buds and blossoms" will stand as proof forever.

**JEEVA. R XII-A
School Pupil Leader**

PARENT MESSAGE

As a parent, I value St. Vincent's School for its balance of spiritual and academic growth. Their motto,

"Pray, Learn, and Serve," reflects our family values and promotes both education and moral development. The school's inclusive approach embraces students from all backgrounds, fostering a diverse and respectful environment. With dedicated teachers and a focus on empathy and responsibility, St. Vincent's provides a well-rounded education that prepares children for the future. I'm confident that my child is thriving in this nurturing community.

Mr. Anand

Advocate

A school is much more than a place for academic instruction; it is a space where a child experiences growth in all dimensions - intellectually, emotionally, and socially. St. Vincent Matriculation Higher Secondary School exemplifies this holistic approach, nurturing students through a well-balanced blend of curriculum and co-curricular activities. In today's world, students are more sensitive and perceptive, and schools must evolve to meet these changing needs. The time for rigid, overly strict institutions has passed. What is needed now is a nurturing environment that fosters joyful and well-rounded development.

St. Vincent Matriculation Higher Secondary School stands tall in this regard, setting an example that is both commendable and worthy of recognition. The school's unique model of education begins with an open-ended approach in the primary years, allowing students to explore and grow without unnecessary pressure. As they progress into high school and higher secondary levels, students are gradually conditioned to handle greater responsibilities and challenges, but in a way that does not feel burdensome or overwhelming.

Beyond academics, St. Vincent places significant emphasis on co-curricular development, recognizing the importance of shaping well-rounded individuals. From dedicated counseling sessions for parents to individualized remedial classes for slower learners, the school offers a support system that ensures no child is left behind. Additionally, the diverse range of club activities provides students with opportunities to explore their passions, build confidence, and develop essential life skills.

What sets St. Vincent apart is its unwavering commitment to the personal growth of each student. The school's comprehensive approach, integrating academics, co-curricular pursuits, emotional well-being, and parental involvement, makes it truly incomparable. It is this dedication that ensures every child leaves the school not only academically proficient but also confident, compassionate, and ready to succeed in all aspects of life.

As parents, we are incredibly grateful for the school's continued efforts to create such a warm, supportive, and enriching atmosphere. We wholeheartedly congratulate St. Vincent Matriculation Higher Secondary School for its exceptional commitment to the development of our children. Your work is not just appreciated, but it is truly celebrated!

Mrs. Thalitha.

At the outset, we would like to thank the principal, for providing us this opportunity to share this write-up about St. Vincent Mat. Higher Sec. School. It has been a wonderful journey being associated with the school for the last 9 years.

We would like to thank the teachers for their care, collaboration, support, and most importantly, patience. A huge thanks to the non-teaching staff as well, for their dedication and support, day in and day out, for maintaining and running the school with the utmost care. My wife and I, with extensive experience in andragogy (adult learning), understand what it's like for a teacher to teach a group of students while still maintaining the required decorum and at the same time imparting knowledge and good values that the children will retain for the rest of their lives. Most importantly, through the pandemic, all the teachers did their best to familiarize themselves with the technology required to virtually conduct the classes and complete the academic year. Kudos!

Likewise, post-pandemic, their unwavering support and adaptability have made the transition back to school seamless for our children, fostering a positive learning environment. We deeply appreciate the commitment to

guiding students through these changes and maintaining the quality of education during regular school hours.

In our experience, St. Vincent is a school that guides teachers and staff by showing them the right way, so that impeccable education is provided. We as parents have the confidence that our child is in a very good environment, and it always keeps him motivated to come to school and do his best in both academic and extracurricular activities.

Thanks once again to St. Vincent Mat. Higher Sec. School, and we wish the Vincentian family many more years of success and bringing about a change in society.

All the best!

William Reid Lawrence

Holy Mass

Blessed be the God and Father of our Lord Jesus Christ, who has blessed us in Christ with every spiritual blessing in the heavenly places.

Ephesians 1:3

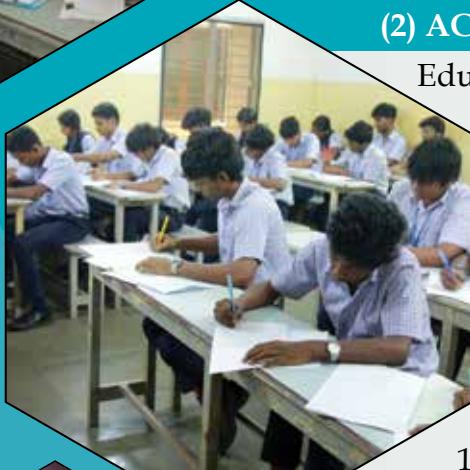

ANNUAL REPORT 2024-2025

(1) INTRODUCTION

"Education is the training of the mind, not the stuffing of the brains. It is the assimilation of ideas, not the dissemination of data. It is the process of character building, strengthening of mind and the expansion of intellect"

The warmest greetings of this wonderful evening to one and all present here. It is an honour bestowed upon us to present this 34th Annual Report of St. Vincent's Matric. Hr. Sec. School for the academic year 2024-2025.

(2) ACADEMICS

Education helps us create equal opportunities as it is the gateway to social, financial and intellectual freedom. St. Vincent's has become synonymous with academic excellence a bench mark to measure curricular and co-curricular achievements, also a centre which moulds responsible global citizens, having crossed many measurable milestones.

St. Vincents has become a dream destination to many. The academic year 2023-2024 commenced with the results of 10th, 11th and 12th classes.

"You don't have to be great to start, but you have to start to be great"

We are happy to share the details of the commendable performances of our students. In Class 12 School First, attained by T. Arjun with the total of 564/600 and secured centum in Economics and Scored highest mark in Accountancy and Business Maths.

A. Kaniha emerged school second with the total of 557/600 and got the highest mark 97 in Tamil.

Rena Baijul B as school third with the total of 553/600.

In Class 11 M. Preethi attained school first with the total of 576/600 with centum in Economics. Highest Mark 99 in Commerce, 98 in English and Business Maths.

C. Dhiviyasri the school second with 573/600, with centum in Accountancy.

A. Celestena, the school third with 565/600. Highest Mark 97 in Tamil, Centum in Economics.

In Class 10 P.B. Brijilin Paul is the school topper with 482/500.

S. Tharun the second with 481/500 highest mark 99 in Maths and Alicia Philomel Helena the school third with the total of 480/500 and Highest mark 99 in Maths, 98 in Science.

Congratulations to the students and the teachers for their hard work, dedication and the training that they had given to the students.

This educational excellence is the hallmark of our institution, as our students have once again proved that proactive preparation will lead to phenomenal performance.

(3) RE-OPENING

"The journey of a thousand miles begins with a single step"
Re-opening of the school after the summer break is a time for new aspirations and rekindle the joy of learning. The school re-opened on 7th June, 2024 for classes I to XII, the principal Rev. Dr. Estheppan Thomas, welcomed the students in the assembly.

(4) WELCOMING THE TINY-TOTS

On 12th June 2024 the tiny tots of St. Vincent's stepped into the world of education. They were given a warm welcome by the principal and the teachers.

Photo frame was set up to click pictures as a remembrance of their first day of school and kindergarten class rooms were decorated colourfully to welcome the tiny tots.

(5) INVOKING OF DIVINE BLESSINGS

"Every good and perfect gift is from above coming down from the father of the heavenly lights, who does not change like shifting shadows"

The holy moments of our school's annual blessing took place on the re-opening in a very pious atmosphere. This spiritual moment was filled with hope, inspiration and divine presence of the Vincentian fathers to grace the occasion.

Prayers are the means of passing the moral values to the students to inculcate these values, on every first Friday of the month, we beseech the blessings of the Almighty by celebrating the Holy Mass.

(6) INVESTITURE CEREMONY

Leadership is the capacity to translate vision into reality. The investiture ceremony of St. Vincent's School for the academic year 2024-2025 was held with great pomp and dignity in a special ceremony at the school.

The Chief Guest of the day was Mr. Kirubanadhi, Inspector of Police, K3 Police Station, Aminjikarai, Chennai.

It signifies the reliance and confidence that the school consigns in the newly elected office bearers. Donning the mantle of accountability, they also pledge to bestow their duties to the best of their abilities. Master R. Jeeva XII A as School Pupil Leader, Sandhya of XI C as Asst. School Pupil Leader and the student

council with their respective badges. The student council members with heads high marched behind the band with their flags. Later they took the pledge to hold the school motto "Pray Learn and Serve".

7) CLASS ASSEMBLIES

Class assemblies provide students with opportunities to actively participate and showcase their abilities. It helps students to build self confidence in public speaking and self-expression of their aesthetic talents. To instill discipline among students and to boost their self esteem class assemblies are organized for the students of all the section.

8) YOGA DAY

On 21st June 2024 the 10th International Yoga Day was observed with great enthusiasm. The chief guest of the day A. Amba Yoga teacher addressed the students. The objective of this celebration was to unite mind, body and spirit to discover the power of Yoga and unlock the potential of the students and ignite their inner light.

9) INAUGURATION OF LITERARY AND SERVICE UNIT

Education should not be confined within the four walls of the classroom for the holistic development of a personality. Children should be given enough exposure to mingle with their peer group and engage in various club activities. To foster in the student, the sense of service students are made to enroll themselves in various service units. Major Gugamalathy, an administrative officer, NCC, Chennai was the Chief Guest who honoured the various leaders with their badges.

The various literary associations are:

- The Shakespearean English Literary Association.
- Veerama Munivar Muthamizh Mandram.
- Ramanujam Maths Club
- Spectrum Science Club
- Tim Berner's Lee IT club
- New dawns art club.

10) SERVICE UNITS

"It is easy to come, teach and go.... It is difficult to inspire give life of opportunities and ignite a spark in the young minds". Teachers are social engineers and the custodians of value system to equip our service units and to enhance the potential characters and the skills of the students our, school organizes various service units such as Scouts and Guides, JRC, RSP, NSS, ECO club, Red Ribbon Club, SVPL and BAND.

GRAND RALLY

"Peace, Unity, Love, Non-Violence was our Rally Cry and the catalyst for change in our country".

250 students participated in a grand rally along with the in-charge teachers of various service and club units.

The Chief Guest Mr. C. Charles, Consultant of Solid waste management, Greater Chennai Corporation, flagged off the rally in the presence of our Principal Rev. Dr. Estheppan Thomas.

NSS CAMP

NSS volunteers are the voice of St. Vincent's put into action. These actions shape and mould the present into a future of which we can be proud. NSS volunteers took part in cleaning up the campus of St. Vincent's Seminary Dharkast, Tambaram. They had various sessions like Yoga, Self Defense, Rally etc., from 28th September 2023 to 4th October 2023. The camp was inaugurated by the Panchayat Head Mr. Selvamani BA BL

JRC

"Soul meets stomach
Flavour meets fantasy
Eyes meets different treats"
at Food Festival

Conducted by JRC where importance is given to the traditional, organic and healthy food on 7th February 2024.

11) PTA MEETING

"Parenting is about raising and celebrating the child you have, not the child you thought you'd have".

The most overwhelming key to a child's success is the positive involvement of parents. Connecting school and home makes a great community of learners. Understanding this reality, PTA meetings are organized for all classes at regular intervals.

12) SPORTS MEET

"Sports is ideally teaching discipline and commitment. They challenge you and build character for everything you do in life" To develop the skills, sports competitions were held among the students. The 34th Annual Sports Meet was conducted on 4th August 2023, at Loyola College Ground. A day filled with fervor and excitement. Mr. Sivaraman IOB, International Volley Ball player was the Chief Guest. And the day was marked by the Inter-house March past of students in their attire, lighting of the sports Olympic torch and the colourful and impressive drill display by the students.

Games are essential for the healthy development of the students.

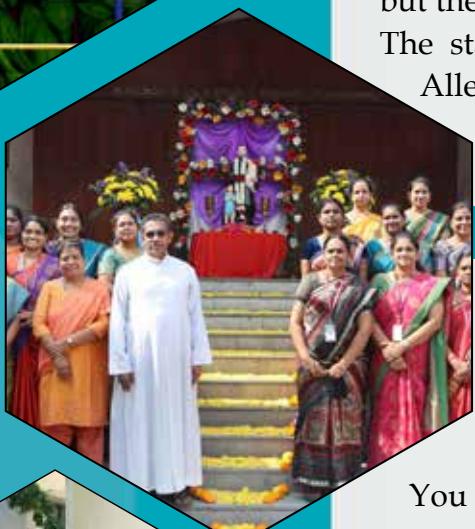

JOURNEY OUTSIDE SVS

"Travel is always pretty, Travel is always comfortable
Travel is always breathe taking
The more you get acquainted to new places, the more year learn,
the more you gain.

To explore this beautiful world and to hear the different sounds of nature the children of SVS were taken to various places. Students of Class 10 and 12 were taken to Kochi a cultural heritage and tourist destination among the domestic and international travelers. Students of class 9 and 11 were taken to the theme park MGM Dizzy World. "Nature is the best therapy and a picnic is a perfect way to enjoy it".

Whatever the journey is, it is not only the destination that matters but the people with who you travel.

The staff of SVS were taken to Kerala, God's own country, Alleppey Boat House.

EVENTS AND CELEBRATION

The more you praise and celebrate your life, the more there is in life to celebrate.

Patron's Feast "Free your mind from all that troubles you;
God will take care of things

You will be unable to make haste in this (choice) without, so to speak, grieving the heart of God because, He say that you do not honour him sufficiently with holy trust. Trust in him." with prayerful reverence, Vincentians celebrate the feast of our patron St. Vincent's De Paul on 25th of September 2024-25.

TEACHERS DAY

The Teacher's Day Celebration embodies the Spirit of unity, respect and gratitude. This day serves as a reminder that teachers are not just disseminators of knowledge but mentors who leave an indelible mark on the lives of their students.

The teachers day was celebrated in our school in a gorgeous manner. Cultural events and games were organized by the students. Thanks giving mass was offered to bless the teachers followed by lunch. The management honoured the teachers with special gifts.

DIWALI

An occasion to celebrate victory over defeat, light over darkness awareness, over ignorance, an occasion to celebrate life. SVS celebrated Diwali with happiness, joy and peace.

SV EXUBERANZA

"True change requires a focus on creating school culture that supports academic, social, emotional and character development of children".

SV Exuberanza Intra School Cultural Competition was conducted on 25th October 2024. The students of 4 houses participated in various programmes with zeal and enthusiasm. There were both on and off stage programmes.

The proud alumni of St. Vincent's Mr. MC Aravind, Emcee/ Entrepreneur, hosted official World Record event thrice around the world was the Chief Guests on that day.

CHILDREN'S DAY

Children are like buds in a garden and should be carefully and lovingly nurtured as they are the future of the nation and the citizens of tomorrow. Only through right education can a better order of society be built up.

SVS celebrated Children's Day on 14th November 2024. The teachers entertained the children with the variety of programmes, like dance, villu pattu, drama etc. The children enjoyed the programmes.

13) CHRISTMAS CELEBRATION

"Christmas is a season of great joy a time for remembering the past and hoping for the futures".

SVS celebrated the festival of Christmas to provide the stability and create a feeling of belonging.

The Nativity play was the highlight of the Christmas Day Celebration. The School Campus was decorated with stars and a beautiful crib was set up.

On the same day the school magazine with the new name COMPASS was released by the Chief Guest. Mrs. S. Latha, Principal of Sai Ram Leo Muthu Public School.

14) REPUBLIC DAY

The 75th Republic Day was celebrated with great enthusiasm and patriotism on 26th January. The day began with the hoisting of the National Flag followed by a series of cultural programmes. The Chief Guest of the day was our own Alumni Mr. Vijay Kiran B. Squadron Leader, Indian Air Force.

15) PRINCIPAL's BIRTHDAY

February 25th is a Red-Letter Day in the calendar of St. Vincent's.

On that day, The birthday of our beloved Principal, Rev. Dr. Estheppan Thomas CM was celebrated. A variety of mesmerizing programme was presented by the students. It was a day of fun and frolic. The day reached its culmination with a grand luncheon arranged by the management for the staff.

16) FAREWELL

"My your path be paved with joy
Your heart be filled with the
warmth of friendhship
Cheers to the incredible journey
you had together."

An important chapter of life has come to an end. However, there is a whole new chapter of life awaiting.
SVS wished all its 12th Std. students success and joy in their new journey.

17) SILVER JUBLEENARIANS

"Love, trust, Service, dedication, partnership, tolerance and understanding. The order varies for any given year"
Reaching 25 years of service is an amazing event which must be treated with respect and happiness.

St. Vincent's honours it's siver jubleenarians Mr. Steevi, Office Asst, Mrs. Sharon and Mrs. Lilly Primary Teacher for their relentless service. The school wishes them good health and more years of service.

18) BEST TEACHERS AWARDS

"A good teacher can inspire hope, ignite the imagination, and instill a love of learning".

1) Mrs. Jayalakshmi Dept of Chemistry was awarded the student favourite teacher at Agni College of technology. 2) Mrs. Dhanalakshmi, Dept. of Tamil received an award from Rajalakshmi Englineering College. 3) Mrs. Mercy, the Primary Teacher was awarded the Best teacher awarded by Vallalar College of Engineering and Technology.

19) RETIREMENTS

"Man's feelings are always the purest and the most glowing in the hour of meeting and of Farewell".

A programme was arranged to bid farewell to our beloved teacher. Mrs. Nirmala who had worked hard for the well being and upliftment of SVS since 1990. Our supporting staff members.

Mrs. Valliammal and Mrs. Shanthi who had made an indelible mark on our institution with their admirable service were given a heart touching send-off. We wish them a healthy and happy retirement.

20) ANNUAL DAY

"Learning is their journey let them navigate. Push them to explore watch them discover encourage their questions. Allow them to struggle support their thinking".

SVS 34th Annual Day was celebrated on two consecutive days with Chief Guest on day 1 Mr. Sri R. Balaji, Asst. General Manager Reserve Bank of India and the Guest of Honour Mr. M. Azhagesand IRs, Dept of Revenue, Asst. Commissioner Customs, GST Chennai.

On the Day 2 Dr. A. Louis Arokia Raj, Principal, Loyola College, Chennai was the Chief and Mr. D. Varnatharaj, Inspector of Police, Thirumangalam Range, was the guest of honour.

The enthusiasm dedication and effort of the teachers and staff was clearly seen in the planning, managing and execution of all the programmes.

21) CONCLUSION

The smooth functioning of any educational institution depends on the cordial relationship among the management, teachers and the parents. Every single child who gets admitted in our school is a child who is very special, very dear to us every single parent who is associated with us is our most important stakeholder. We do cherish your partnership and collaboration is all our endeavours. We treasure your love and concern towards our institution which is the second home for our children. Your esteemed presence in spite of your hectic schedule makes the day meaningful and noteworthy. As we conclude this report we extend our sincere thanks to all the parents and well wishers who have lent a supportive hand down through the years.

Year's end is neither an end nor a beginning but a going on, with all the wisdom that experience can instill in us.

Mrs. Eunice &
Mrs. David Gladas

SILVER JUBILARIANS

Mrs. Sharon ◀

A journey of thousand miles begins with a single step.

Mrs. Sharon, in her 25 years of dedicated service in St. Vincent's School, has enabled over thousands of students to take the first step in their educational journey. Mrs. Sharon is compassionate and affectionate towards the students, follows creative and innovative teaching techniques, shows meticulous organization in her work, and is very patient with the students. She is kindhearted and never harsh to anyone. She extends a helping hand to everyone around her. She dances, sings, and plays along with the students and brings joy to the classroom. Behind every successful Vincentian doctor or engineer is the hard, selfless work and love and affection shown by Mrs. Sharon.

Mrs. Lilly ◀

Good teachers know how to bring out the best in the students.

Though Mrs. Lilly's mother tongue is telugu, she has a great love for tamil language and teaches the students of primary class the correct pronunciation of tamil letters. She is very patient with the students and takes great effort to make the students write tamil letters properly. She encourages the students to take part actively in the tamil competition. When parents approach her, she patiently listens to the parents and does the needful to help them. She is a very simple person and maintains a good relationship with everybody. In her 25 years of fruitful service in SVS school, she has paved the way for young buds of SVS to bloom into beautiful and fragrant flowers.

Mr. Steevi ◀

Those who are the happiest are those who do the most for others.

Mr. Steevi has worked as an office assistant and chemistry lab assistant for the past 25 years. He also assists the examination committee and the school band. He is a very hard-working person, shows willingness to assist anyone who approaches him, and shows sincerity and dedication to his work. He fulfills all the duties entrusted to him on time and completes them with perfection. He always keeps the chemistry lab clean and organizes the lab perfectly for the practical classes and board exam.

ENGLISH ARTICLE

YOGA AND MIND HEALING

Yoga has long been revered as a powerful practice for both physical as well as mental well-being. Practicing yoga stimulates the parasympathetic nervous system, promoting deep relaxation and reducing stress. It enhances mindfulness, allowing individuals to develop self-awareness and cultivate a positive mindset.

Moreover, yoga encourages the release of endorphins, the body's natural mood-enhancing chemicals, promoting a sense of overall well-being and happiness. Yoga is an ancient form of spiritual exercise that is performed to better our bodies and minds. Regular practice of yoga generates clarity of mind and peacefulness; it also overcomes chronic stress and sharpens our concentration.

"Yoga means addition – addition of energy, strength and Beauty to body, mind and soul"

F. Moreen Sylvia, VIII B

MY SCHOOL AND MY PRIDE

In Chennai's heart, where dreams take flight,
Vincent's School, A beacon shining bright.

With "Pray, Learn, Serve" as a guiding star,
Young minds ignited, reaching afar.
Aminjikarai's ground, A fertile space,
Where knowledge blooms and talents embrace.
Classrooms echo with wisdom's sound,
While sports arenas cheer resounds.
English language, A precise art,
Refining minds, right from the start,
Cultural tapestry, woven with care,
Enriching souls beyond compare,
From science labs to the literary stage,
Exploring passions, a golden stage.
Friendships forged, A lifelong bond,
In Vincent's Hall, where spirits respond.
With every challenge, a spirit to soar,
Achieving heights, forevermore.
A legacy built on values true,
Vincents Students, A brilliant crew.
So let us praise the hallowed place,
Where dreams take flight and leave their trace.

R.V. Aarathyamithra, VI C

14 DIFFERENT WAYS TO BECOME A CONFIDENT PERSON

- Discount outside opinions
- Master your emotions
- Update your performance
- Self-Evaluation
- Count your blessings
- Develop Personal Momentum
- Positive thinking
- Find your purpose
- Don't overthink
- Reach a goal
- Stand up for yourself
- Be comfortable with yourself
- Upgrade your self-talk
- Come prepared.

C. Dhivya Sri, XII C

“FAREWELL TO OUR SCHOOL”

In the halls where echoes fade,
In the rooms where dreams were made,
We bid farewell to our school,
With bittersweet emotions fuel.
The laughter, the tears we shared,
The friendships formed, how we cared,
Through the challenges we faced,
In our last year, we embraced.
Teachers who inspired, believed,
In our potential, they perceived,
Guiding us with wisdom's light,
In the journey, day and night.
Now we stand at the threshold,
Of the future yet untold,
Grateful for this final year,
In our hearts, forever, dear.

R. Jeeva, XII A

MY DAY

I woke up with a smile,
To see My World around
me for a while.

They crowned me with a label
And that's 'ANGEL'.

Their love fills me with joy,
I told my clock not to destroy.

New clothes on me, made me shine,
And all I needed was their time.

Yes, its my day,
MY BIRTHDAY!!!

C. Jessica Rishani, VII A

MY LIFE AS A GOODY BOY!

I was never a good boy,
Used by many as a toy!

I love to sit alone
With no one around
I make people happy
By acting goofy!

No one likes me
And no one is like me!!

When I say I'm insecure,
I really mean I'm in secure

At last, I would like to say
I was never a good boy
And I'll never be!

R. Dhiyanesh, XI A

GROWING OLD

I was three!
Laughing limited – free;
Acting immature
Not caring for my own future!
Suddenly, a girl of seven!
This place was like heaven!
Nothings odd; Nothings bad!
Just had a piggyback on my dad.
It was my birthday of thirteen!
Just so curious about my teen.
Exploring the unknown
Holding the prettiest crown!
When I turn sixteen!
Everything was so mean,
I felt like a lost one in the woods.
Hoping again for my childhood!

Soon I'll be twenty!
Hoping this life would be pretty!
Howing my own priorities
Caring and loving with similarities.
Whatever, time will pass!
But nothing will have pause!
For my life, I have my own devotion
Just deep as the ocean.

J.B. Bernecia Jovlin, XI B

RIDDLES

1. I am red and round on a tree I'm found, I am juicy and sweet for you to eat (Apple)
2. It's a type of berry Red Carple or green It's little and round and can be as small as a bear (Grapes)
3. I have a neck, but a face I have none; I have two arms, but hands I have none. What I am!!! (Sweeter)
4. One of the greatest assets to any relationship is honesty.
5. Brighten your day with the sunshine of thanks.

K.M. Luqman Ali, V C

MY REFLECTIONS UNDER THE MOONLIGHT

The night's soft touch comforts my soul.
As the moonlight dances, my heart is whole.
In the darkness, I find my comfort zone,
Alone with shadows, a place no one can own!
The world is in silence, a quiet embrace.
As the lunar light illuminates the space.
I whisper my secrets to the moon with no fear!
Joy fills my heart, and I am clear.
In this nocturnal solitude, I feel myself strong.
A sense of freedom, where my love and peace
belong!
With the starry night, the milky moon, and the
lovely darkness,
I vibe alone, with streams of happiness.

S. Suruthylaya, XI B

SEEDS OF TOMORROW

We are the seeds, so tiny and small
Planted in knowledge, growing quite tall
Nurtured by teachers, with loving care,
Reaching for Sunlight, beyond compare.
A garden of minds, where dreams take flight,
Learning and growing with all our might.
Friendship we cherish, like blossoms bright,
Filling our days with joy and light.
Challenges may come, like stormy weather,
But with courage, we'll rise together
Roots deep and strong, we'll face the test,
Emerging victorious, standing our best
So let us bloom, with colors 50 true,
Reaching for the sky, a vision new
With knowledge as our guide,
we'll soar and shine
Leaving our mark, a legacy divine.

N. Ismat Farhanah, VIII A

GRATITUDE OVER GRUMBLING

We should always be thankful to God for whatever obstacles come in our lives. Instead of saying, "Why is it always happening to me?" Learn to say, "Thank God something worse than this didn't happen to me." Instead of worrying and complaining about everything, try to focus on finding a solution. Everything happens for a reason, and there is good and bad in everything. But the majority of the people only focus on the bad, and only a minority of the people try to see the good things.

Always Remember

Most people will always
Grumble about ROSES HAVE THORNS
ONLY
Some people will be thankful
That THORNS HAVE ROSE
Being a grumbler or a problem solver,
it's up to you.

M. Monisha, X B

MOTHER

Mother is the most influential person in the life of every individual. She is a very hard-working person who holds the most honorable position next to the Almighty. She plays a crucial role in the holistic development of her child and always caters to the basic needs of her family. The beauty of a mother-child relationship is that her love and sacrifice know no bounds. She is like a guiding star. She keeps me awake whenever I'm not feeling well. She imparts moral values and ethics to me and shows me the righteous path of life.

Umar Haziq, V B

MOM

A gentle soul, a loving heart,
My mom, a work of art
With kindness and care,
She guides me through,
And helps me find my way,
Whatever I do

Her smile can light up a room.
So bright, and her hugs make everything feel
Just right.
She's always there to lend a helping hand.
And with her support, I can take a stand.

So, here's to my mom,
A shining star,
Who helps me reach near and far.
I am grateful for her every single day.
Send love to her more with each passing way.

S. Ajaysh, III A

நம்பிக்கை

கனவுகள் என்பது கடல் அலை
கண்களுக்கு அது ஒரு சிறந்த அலை
அதை எட்ட பாடுபடும் அலை
நமக்கு வழிகாட்டும் நம்பிக்கையெனும் அலை
கடவுளே வந்து கை கொடுத்தாலும்
நம்பிக்கை இல்லை என்றால்
கரை சேர்வது கடினம் தான்
உன்மீது நீ நம்பிக்கைக் கொள்
முயற்சிகள் தோற்றுப் போகிறதா
தளர்ந்து விடாதே தோழா!
மீண்டும் கடந்து வா நம்பிக்கையுடன்
விதைகூட இங்கு விழுந்துதான் எழுகிறது
தோல்விகள் கூட ஒருநாள் தோற்றுபோகும்.
உன்மீது நம்பிக்கை இருந்தால்!
உன்னை நீ நம்பு
நம்பிக்கையுடன் செயல்படு...

RIDDLES

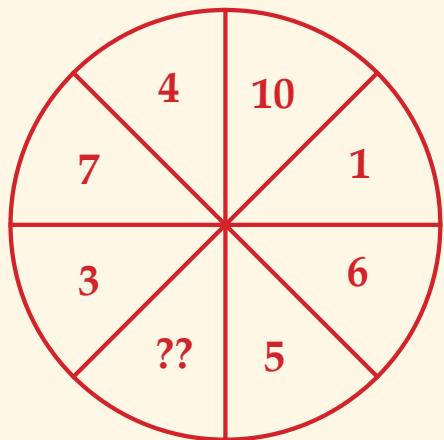

1) When two numbers are added together, their sum is 46. One of the numbers is 6 greater than the other. What are the two numbers?

Ans: 20 and 26

2) Josh has 5 sons, and each of them has a sister. How many children does Josh have?

Ans: Six of the sons all share the one sister.

3)

Ans: 8 As you can notice, both numbers in each quarter of the circle equal 11.

$$7+4=11$$

$$10+1=11$$

$$5+6=11$$

$$??+3=11 \text{ (So therefore ?? equals to 8).}$$

PUZZLES 1

1. Enter numbers in each row and column to arrive at the end totals. Only numbers 1 through 9 are used, and each only once.

	-		+		=	6
-		+		-		
	+		-		=	14
+		-		+		
	-		+		=	5
=		=		=		
9		10		4		

Answer :

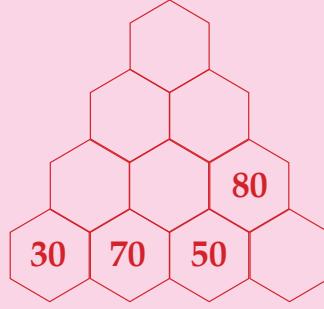

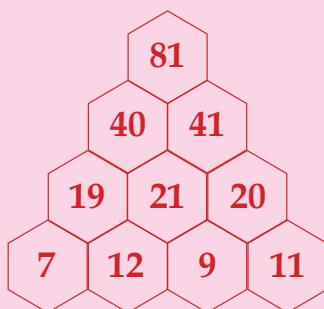

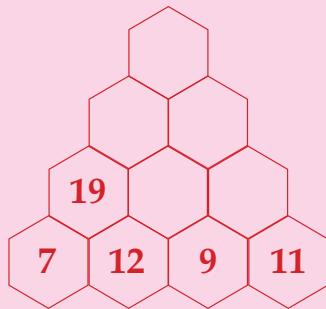

8	-	5	+	3	=	6
-		+		-		
6	+	9	-	1	=	14
+		-		+		
7	-	4	+	2	=	5
=		=		=		
9		10		4		

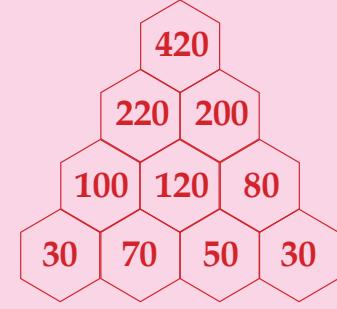

PUZZLES 2

2. Each number in the hexagons is the sum of the two numbers below it. So, what should be placed in the top hexagon?

Answer :

Answer :

S. Priyadarshini, XI C

MATHS TRICK

THE ANSWER IS 1089.

- Think of a 3 digit number
- Reverse the digits and subtract this number from the first number
- Now, reverse the digits of the answer and add it with the original answer.

Why does a circle have 360°?

In a year, there're 365 days. Subtract 5 to make it a perfect number. 360 is also a magical number because,

$$360/2 = 180 = 1 + 8 + 0 = 9.$$

$$180/2 = 90 = 9 + 0 = 9.$$

$$90/2 = 45 = 4 + 5 = 9.$$

And it goes on... So, for a perfect figure like circle 360° is the perfect angle for circle.

M. Monisha, X B

When the number 9 is added to the number 5, the answer is 2. The answer is correct, but how?

Answer: When we are telling in time (9.00 + 5 hours = 2:00).

P. Anusri, VIII C

Multiply all the numbers on the number pad of a phone. The total is 0. It is the correct answer, but how?

Answer: Any number multiplied with 0 is 0 ($0 \times 0 = 0$).

P. Anusri, VIII C

SCIENCE ARTICLE

RUTHENIUM REVELATIONS

The hidden power of a supercharged catalyst:

In the intricate dance of chemical reactions, ruthenium catalysts are like the star performers, making the entire process smoother and more efficient. The Marvel of Ruthenium: A Catalyst's Superpower. Ruthenium, a rare and precious metal, is not just a beautiful addition to the periodic table. When used as a catalyst, it transforms ordinary chemical reactions into extraordinary feats of efficiency. These catalysts work by lowering the energy barrier required for reactions to occur, much like easing the friction in a complex machine to make it run more smoothly. This means that reactions can happen faster and with greater precision.

From Laboratory to Industry: Ruthenium's Versatility:

One of the most remarkable aspects of ruthenium catalysts is their versatility. In laboratories, they are used to synthesize complex molecules, making the creation of new pharmaceuticals and materials faster and more efficient. In industry, they help streamline processes in the production of fuels and chemicals, playing a crucial role in the development of sustainable energy solutions. This adaptability makes ruthenium catalysts indispensable across various fields.

Unlocking new possibilities: The Future of Ruthenium Catalysis:

The future of ruthenium catalysis is as bright as its potential is vast. Researchers are continually exploring new applications and refining techniques to harness the full power of this remarkable metal. As we advance, ruthenium catalysts will likely unlock even more groundbreaking discoveries and innovations, driving progress in science and industry.

Ruthenium's catalysts for change:

In conclusion, ruthenium catalysts are more than just a scientific curiosity; they are powerful tools that drive progress, efficiency, and sustainability. By transforming how chemical reactions occur, they play a vital role in shaping the future of technology and the future. So, the next time you hear about a breakthrough in chemistry or sustainability, remember that ruthenium might just be the unsung hero behind the scenes.

MARS MISSION: JOURNEY TO THE RED PLANET:

Mars, our celestial neighbour, has captured human imagination for centuries. Its striking red appearance, visible even from Earth, has made it a focal point of scientific exploration and cultural exploration. In recent years, missions to Mars have advanced our understanding of this mysterious planet, bringing us closer to answering age-old questions about the possibility of life beyond Earth.

Why Explore Mars?

Mars holds a special place in planetary science due to its similarities to Earth. It has seasons, polar ice caps, and evidence of ancient river valleys and lake beds. By studying Mars, scientists hope to uncover clues about the planet's past climate, geology, and potential for hosting life.

Milestones in Mars Exploration:

The exploration of Mars began with flyby missions, but the real breakthroughs came with landers and rovers. NASA's Viking missions in the 1970s were the first to successfully land on Mars, sending back invaluable surface and atmosphere.

The Curiosity rover, which landed in 2012, has been exploring Gale crater, analysing soil and rock samples for organic compounds. Its findings have provided significant insights into the planet's habitability in ancient times.

The Future: Humans on Mars:

Looking ahead, the dream of sending humans to Mars is becoming more tangible. NASA, along with private companies like SpaceX, is working on plans to send astronauts to the Red Planet. Preparing for human missions involves developing life support systems, radiation protection, and sustainable resource utilization. The challenges are immense, but the rewards could redefine our understanding of life and the universe.

Interesting facts about Science

Interesting Facts about Science

1. The total blood oxygen that is produced in our body, the brain gets 20% of it.
2. One million, million, million, millionth of a second after the big bang, the universe was the size of a pea.
3. The thermometer was invented in 1607 by Galileo.
4. There are roughly 2 pints of water in every cubic foot of soil on Mars.
5. The world's oceans contain 20 million tons of gold.
6. If the ocean dried out, the salt left over would cover the continents to a depth of 5 feet.
7. There are more cells of bacteria in your body.
8. Every second, around 100 lightning bolts strike the earth. And every year, lightning kills 1000 people.
9. In October 1999, an iceberg the size of London broke free from the Antarctic ice shelf.
10. In early pregnancy, the neurons in our brain develop at an alarming rate of 250,000 per minute.
11. There are about 7,000,000,000,000,000,000,000,000 atoms in a human body.
12. If Pluto revolves around the Sun it takes 248 days to orbit the sun.
13. The milky way has four spiral arms, not two.
14. If you cry in space, the tears just stick to your face.
15. Ladybirds can fly at speeds up to 60 kmph.
16. Humans can't breathe and swallow at the same time.
17. Each of a tarsier's eyeballs is as big as its brain.
18. The sun makes up more than 99% of the mass of the solar system.
19. Humans can distinguish between at least a trillion smells.
20. An asteroid in our solar system has rings, like Saturn.

R. Maria Catherena, X C

Facts about Snakes

- 1) Snakes sleep with their open eyes because snakes shed their eye scale as part of the shedding process. This ensures snakes always have maximum protection of their eyes, even with no eyelids. So, although they don't technically get "shuteye" in the literal sense, they do sleep. Snakes just sleep with their eyes open because they do not have any eyelids.
- 2) A snake in Asia commonly known as the "flying snake" not only climbs trees, but can glide through the air from one tree to the next, slithering its body to create lift, achieving distances of 100 meters.
- 3) The Black Mamba snake, one of the most poisonous snakes in the world, contains pain-relieving compounds called mambalgin, which could be a better painkiller than morphine.
- 4) A copperhead snake has hemotoxic venom, said Beane, which means that a copperhead bite "often results in temporary tissue damage in the immediate area of bite." Their bite may be painful but is "very rarely (almost never) fatal to humans."
- 5) Snakes do have nostrils, but they don't use them to smell. Instead, they have evolved to smell with their tongue and by using their Jacobson's organ in the roof of their mouth.

B. Vaishnavi, XII B

Facts About Eye

- The average person blinks 12 times per minute - about 10,000 blinks in an average day.
- Only 1/6th of the eyeball is exposed to the outside world.
- Eyelashes have an average life span of 5 months.
- About half of our brain is involved in the seeing process. Humans are very much visual animals.
- The external muscles that move the eyes are the strongest muscles in the human body for the job that they have to do. They are 100 times more powerful than they need to be.
- The eyeball of a human weighs approximately 28 grams, or one ounce.
- On a dark night, a human eye can see a candle flickering 30 miles away.
- You see with your brain. The eyes sense light and are connected to the brain by over a million nerve fibres.

R. Jefin Stevens, XII B

DNA POEM

DNA, oh DNA

The code of life

Oh, so fine, it's in each cell,

It's hard to miss; it's what makes us who we are,

With a simple twist.

It's made of nucleotides.

A chain so long a double helix

A beautiful song genes and trails

It holds them all; it's the blueprint of us, standing tall.

It's in our blood; it's in our hair.

It's in our eyes; it tells us where we came from.

It's our history. It's who we are; it's our mystery.

So, let's respect it; let's understand DNA.

It's the master plan.

Of life on earth, it's worth exploring DNA

It's worth adoring.

POEM

Physics is fantastic; it's really neat.

Here's to forces and waves and energy and heat!

Yes, physics shows us how matter interacts,

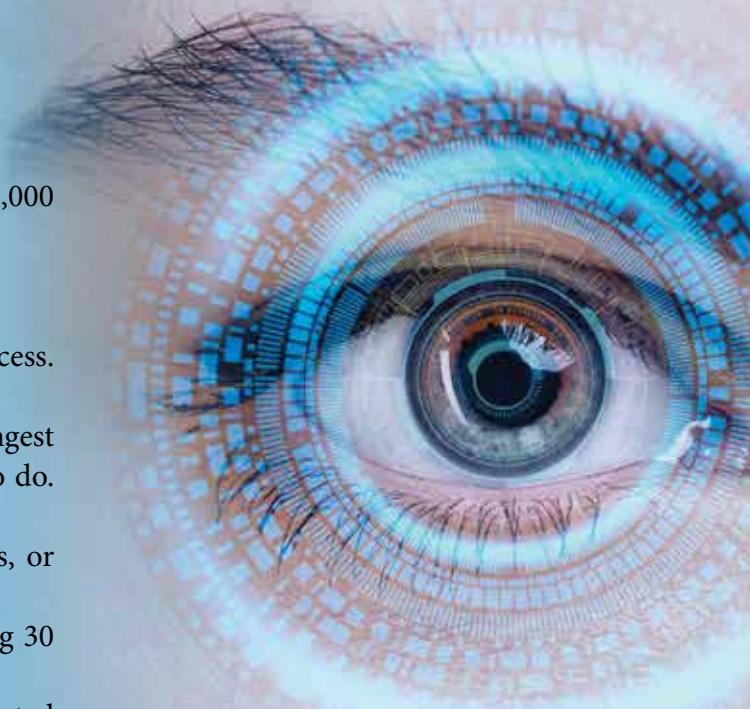

Such that when we push things, they push us back.

In fact, we study the universe from big to small, like

Clusters of galaxies or carbon atoms in a ball.

So let's celebrate National Physics Day and give the science a great big horray!!!

R. Sumithaa, X C

What dietary intake of potassium, vitamin E and vitamin C emerges as significant predictors of cardiovascular disease risk in adults?

Yes!! Prediction models were developed to assess the risk of cardio-vascular disease (CVD) based on micronutrient intake, utilizing data from 90,167 UK Biobank participants. Four machine learning models were employed to predict CVD risk, with performance evaluation metrics including area under the receiver operating characteristic curve (AUC), accuracy, recall, specificity, and F1-score. The extreme gradient boosting (XGBOOST) model was utilized to rank the importance of 11 micronutrients in cardio-vascular health. The result indicated that vitamin E, vitamin C, and potassium intake were associated with a reduced risk of CVD. The XGBOOST model demonstrated the highest performance with an AUC of 0.952, highlighting potassium, vitamin E, and vitamin C as key predictors of CVD risk. Overall, the XGBOOST model emphasized the significance of potassium, vitamin E and vitamin C intake as primary predictors of CVD risk in adults, with age, sex, and BMI potentially influencing the importance of micronutrient intake in predicting CVD risk!

M. Asma Azeena, XII B

Black Holes Explained

Do you know what is a black hole?

A black hole is an astronomical object with an extremely strong gravitational field from which nothing, not even light, can escape. This immense gravity results from a vast amount of matter being compressed into an incredibly small space. As a result, black holes are invisible and can only be detected by observing their effects on nearby matter and light. Do you know how it is formed?

Black holes are typically formed when a massive star exhausts its nuclear fuel. As the star's core becomes unstable, it collapses inward under its own gravity, while the outer layers are expelled in a supernova explosion. The core's collapse leads to the formation of a singularity surrounded by an event horizon, marking the creation of a black hole.

P. Sainath, XI A

Waste and Pollution

We all need to
Reduce our waste,
Let's do it now,
With plenty of haste.
It's also important,
For us into reuse.
If we're really lucky
We'll be on the news.
Our future
Must be sustainable
We can do it.
It's attainable.
About our environment,
We need to care.
It's the only one we have.
And we have to care.
As a team
We'll reduce pollution.
Caring is
The first solution.
V. Suchithra, VIII A

WHAT HAPPENED TO EARTH?

A new study has indicated that Earth's core is rotating at a different speed compared to the rest of the planet. Moreover, the rotation speed is slowing down continuously. Several studies by scientists have suggested that the Earth's core has slowed down so much that it is now moving in a reverse direction.

By the 1970s, the inner core was spinning a little faster than the planet. It slowed around 2008, and from 2008 to 2023, it began moving slightly in reverse, relative to the mantle.

However, the average day lengthened to -0.08 milliseconds in 2023 and is now set to lengthen even more in 2024. We all have the same 24 hours in a day. However, this is going to change in the future. Scientists say that the length of a day on Earth could extend to 25 hours as the moon is moving away from the planet.

According to the research, the moon is receding from Earth at a rate of approximately 3.8 centimeters per year. **"We believe the inner core rotates, relative to the Earth's surface, back and forth, like a swing, one cycle of the swing is about seven decades."**

This means that the planet changes direction roughly every 35 years and previously changed direction in the early 1970's.

The predicted next about-face would be in the mid-2040s.

One major difference that would affect our lives is that the Sun would rise in the west and set in the east. As long as our planet is still rotating the same way around the sun.

DINOSAURS

For about 160 million years, dinosaurs were the most successful animals on Earth. There were giant land dinosaurs that were much bigger than elephants. Enormous flying reptiles took to the air, and reptile monsters ruled the oceans. Dinosaurs lived from about 225 million to 65 million years ago. The period is known as the age of the dinosaurs or the Mesozoic Era. Among the biggest land animals of all times, we prehistoric reptiles. Such as seismosaurus and brachiosaurus (Arm lizard). These 50-tonne reptiles were as big as houses. No one knows exactly how dinosaurs evolved or what type of animal they evolved from. It is thought that they probably evolved from a group of reptiles called thecodonts. Some thecodonts resembled sturdy lizards; others evolved into true Gocodiles, which are still around today. Sinasauers (one of the strongest dinosaurs) preyed on weak dinosaurs. Diunosauras laid eggs. Like most other reptiles. There is evidence that some dinosaur protected their eggs and looked after their young ones when they emerged from eggs. What happened to the dinosaurs? The most likely explanation for the extinction of the dinosaurs is that a comet, asteroid or meteorite hit the earth. There have been other extinctions in Earth's history, but the disappearance of the dinosaurs around 65 million years ago was a cataclysmic event. Dust clouds blew up by the impact caused by climate change; plants died, eggs failed to hatch, and mature animals died of starvation or cold.

P. Nimisha Mary, XII B

Butterfly: Lepidoptera (Lepidoptera)

Butterflies belong to the kingdom animalia of the phylum Arthropoda, class-Insecta, order Lepidoptera, and suborder Rhepalocera. It is further classified into superfamilies. There are about 17500 species of butterflies in the world and around 750 species in the United States. They are the only group of insects that have scales covering their wings, although some butterflies have reduced scales. Most adult butterflies live only one or two weeks, but some species hibernate during the winter and may live several months. From research, it is stated that butterflies of some variety are at risk of extinction. So, we need to protect and prevent this beautiful species from getting extinct.

J.J. Evangeline Sharon Rose – XII B

IS PLUTO A PLANET?

Many people are saying that Pluto is no longer a planet. Are they right? Is Pluto no longer a planet?

There's debate in the scientific world about this issue. National Geographic News says that, according to the International Astronomical Union, a full-fledged planet is an object that orbits the sun and is large enough to have become round due to the force of its own gravity. Because Pluto doesn't meet their standards, the IAU classifies Pluto as a dwarf planet. Not everyone agrees that this is a good way to decide, though Andy Cheng, a planetary scientist at Johns Hopkins University, says that the new rules aren't clear enough and asks the question, "How round is round"? I'll still continue to maintain that Pluto is a planet," he said.

Owen Gingerish is an astronomer and historian at Harvard University in Cambridge, Massachusetts, and head of the IAU committee proposing the definition he favoured a special distinction for Pluto. Gingerish supported a proposal to call the big eight planets classical planets – as opposed to just plain, "Planets" – and Pluto and the other dwarf planets. So there would be two categories of planets. He believes that reclassifying Pluto as a dwarf planet is not "sensitive to the historical and cultural role that Pluto has played."

The argument continues. In the meantime, however, many people are correct – New textbooks will list Pluto as being a dwarf planet. What do you think it is?

A. Haalitha Parvin, XI A

mRNA Technology

mRNA technology has been put under the spotlight recently as the new vaccine for COVID-19 uses this science. With their high effectiveness, capacity for rapid development, and potential for low production costs, mRNA vaccines offer an alternative to the traditional vaccine approach.

mRNA, or messenger ribonucleic acid, is a single-stranded RNA molecule that carries the genetic information that is derived from DNA. mRNA vaccines work by providing a genetic code to cells to allow them to produce viral proteins. Once the proteins have been created, the body can then produce an immune response. The success of the Covid-19 mRNA vaccines has given a big boost to efforts to develop other mRNA vaccines for everything, from cancers to the Zika virus. mRNA can code for just about any protein, so the same basic technology might also allow us to produce a drug-like response. Many protein-based drugs, such as antibodies made outside the body, have proved extremely effective but also extremely expensive. So, by using mRNA technology, development times and costs could be cut by setting the human body to work on manufacturing the proteins instead.

F. Ransom Karunya, XI A

ARTIFICIAL INTELLIGENCE (MEDICAL TREATMENT)

AI is one of the most exciting technologies changing the healthcare landscape in 2022. AI is proving to be very valuable when it comes to detecting diseases early and confirming an accurate diagnosis quicker. For example, in breast cancer care, the use of AI is enabling the review of mammograms to be 30 times faster with 99% accuracy, reducing the need for unnecessary biopsies. AI is also being applied to oversee early-stage heart disease, allowing healthcare providers to discover potentially life-threatening problems at earlier and more treatable stages. In addition, AI is also helping clinicians to create more comprehensive treatment programmes, allowing patients to manage their conditions more effectively. Drug research and discovery is one of the more recent applications for AI in life sciences. AI is able to streamline the drug discovery processes, by creating more efficient ways to discover and repurpose medicines, significantly cutting down the time it takes to market a new drug and reducing their associated costs.

F. Moreen Sylvia, VIII B

FUN FACTS

- Do you know when is the world's earth day? Ans: April 22
- A person's sneeze can travel at a speed of about 100 mph.
- The oldest living tree in the world is in California and is around 4,843 years old.
- Do you know? Earthworms have 5 hearts
- An ant can lift 50 times its own weight
- Octopuses have 79 brains and 3 hearts.
- A mosquito has 47 teeth.
- Dogs can detect cancer in the human body.
- Sharks are only able to move forward, and they can die if they swim backward.
- The unicorn is the official national animal of Scotland.
- Horses are capable of seeing nearly 360 degrees at one time.
- Saltwater crocodiles have the most powerful bite in the world.

A. Edlyn Joanna, VIII A

INTERESTING FACTS IN SCIENCE

- The moon is tidally locked with Earth, which means that it spins on its axis exactly once each time it orbits our planet. Because of this, people on Earth only ever see one side of the Moon. We call this motion synchronous rotation.
- A tablespoon of neutron star weighs more than 1 billion tonnes (900 billion kilograms) – the weight of Mount Everest. So, while you could lift a spoonful of sun, you can't lift spoonful of neutron stars.
- Light travels at a speed of 300,000 km/s and the distance between Earth and the sun is 150 million km. Thus, it takes nearly 8 minutes for light from the sun to reach Earth.
- We need saliva to taste our food. In order for food to taste, the chemicals from the food must dissolve in saliva. Once the chemicals in the food are dissolved, they can be detected by receptors in our taste buds.
- Grasshoppers have ears on their bellies. A pair of membranes that vibrate in response to sound waves are located on either side of the first abdominal segment, tucked under the wings. This simple eardrum called a tympanal organ allows the grasshopper to hear the songs of its fellow grasshoppers.

R. Yojitha, VI C

HOW DO PARROTS MIMIC HUMANS?

Imagine having a pet that can talk. It can be very endearing as much as it is entertaining. Let us know why and how our feathered friends can do it.

The term “bird-brained” was shorthand for unintelligent. But for Irene Pepper Berg, the term is an oxymoron for parrots. She started working with parrots four decades ago and was convinced that species like parrots that live in complex social networks were intelligent animals.

The parrot family includes parakeets, cockatoos, macaws, and many others that have been known for their ability to mimic human speech and sounds. Mimic means a person who can copy somebody's behaviour, movements, voice, etc.,

History of the talking species:

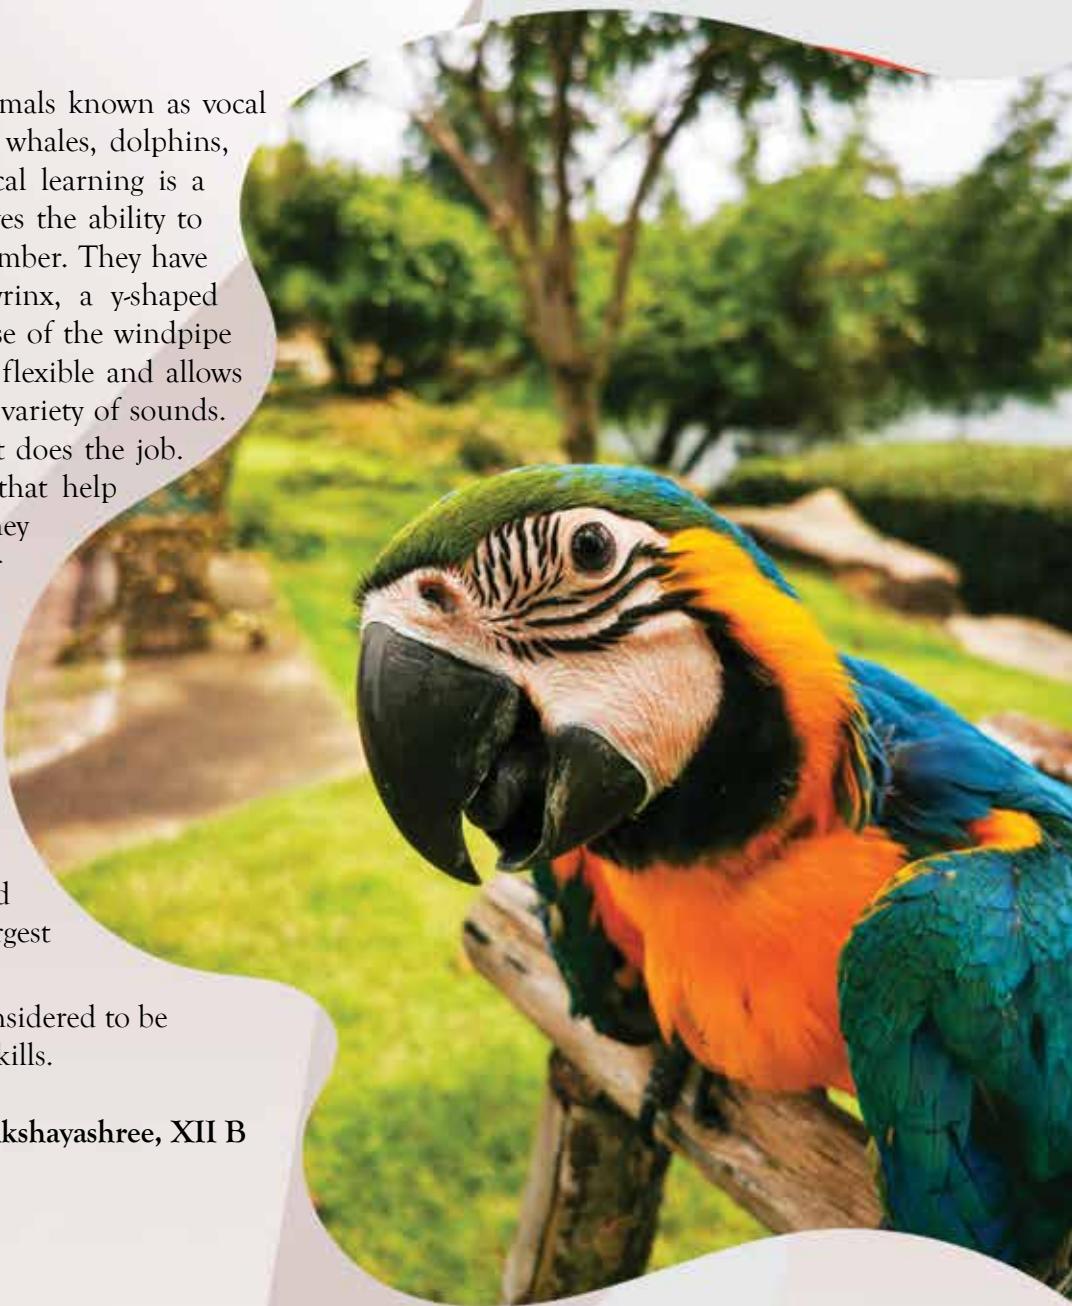

The earliest reference to a parrot talking was made in the 5th century BC, when a Greek physician and Historian described it in his book “Indica”. This bird, which he called Bittacus, may have been a plum-headed parakeet, but when parrot is raised in human household, it hears humans' speech to fit which new flock. Experts believe that the mimicking ability of parrots has deep roots in their evolutionary history and is not merely a quirk of their domestication.

How do they do it?

Parrots are part of a group of animals known as vocal learners, which includes humans, whales, dolphins, and some other bird species. Vocal learning is a complex cognitive skill that involves the ability to hear, reproduce sounds, and remember. They have a specialized vocal organ, the syrinx, a Y-shaped structure that sets between the base of the windpipe and the lungs. This organ is very flexible and allows parrots to produce an astonishing variety of sounds. But parrots also have a syrinx that does the job. They have thick, strong tongues that help them mimic sounds even better. They also have specific areas in their brain known as cores and shells. These structures are far more developed in parrots for lifelong vocal learning.

FUN FACTS:

- A budgerigar, known as the common parakeet, was credited in 1995 with possessing the largest vocabulary of any bird.
- The African Gray parrots are considered to be more proficient at their cognitive skills.

COMMERCE ARTICLE

GLOBALISATION

Globalization is a term used to describe how trade and technology have made the world into a more connected and independent place. Globalization also captures in its scope the economic and social changes. Globalization decreases the cost of manufacturing this means that companies can offer goods at a lower price to consumers. The average cost of goods is a key aspect that contributes to increase in the standard of living. Consumers also have access to a wider variety of goods. Globalization affects social change by increasing access to information and technology, which can lead to cultural diffusion and the spread of new ideas and values.

SCOPE OF GLOBALIZATION:

Globalization can make it easier for people to access raw materials, products and services. It can also lower the prices they pay and their ability travel to other countries. Globalization also changes how local and regional organizations, business and economies functions.

Let's see the types of globalization:

1. Political Globalization
2. Cultural globalization
3. Economic Globalization
4. Technological Globalization
5. Institutional Globalization

1) Political Globalization: Political globalization concerns greater cooperation and joint action taken by state government.

2) Cultural Globalization: It relates to the sharing of ideas and values on a global scale which influence our own day to day lives.

3) Economic Globalization: It can occur at a state level or amongst private economic factors such as transnational corporations.

4) Technological Globalization: The spread of technological advances across the globe.

5) Institutional Globalization: It is better perceived as a dual process of institutional change at the national level and institution building at the transnational level.

Facts about globalization:

- i) Availability of variety of products which enabled the consumers to have greater choice and lower prices for several products.
- ii) This led to higher standard of living
- iii) Increase in foreign direct investment.
- iv) Creation of new jobs in certain industries.
- v) Top Indian companies have been benefited by investing in new technology and production methods along with successful collaborations with foreign companies.

CRYPTO CURRENCY

What is Cryptocurrency?

Cryptocurrency is a digital form of currency that relies on peer-to-peer networks for value transfer without the need for third parties like banks. Indeed, several countries around the world are exploring ways to integrate cryptocurrencies into the economy. The first most popular cryptocurrency, 'Bitcoin' (BTC) was launched in 2009 by 'Pseudonymous Satoshi'.

TYPES OF CRYPTO WALLETS

SOFTWARE WALLETS HARDWARE WALLETS

1. Software Wallets:

These applications can be installed on devices like desktops, mobiles, etc., to store private and public keys and interact with the blockchains. Examples, Meta Mask, Exodus, Jaxx.

2. Hardware Wallets:

These are physical devices, like USB, drivers, used to store cryptocurrency offline for security. Private keys remain isolated from internet connectivity, reducing hacking risks. Examples, Ledger, Trezor etc.,

BENEFITS OF CRYPTOCURRENCY

- Inherent Security
- Low transaction cost
- Lack of interference from the banking system.
- Lower entry barriers
- Universal recognition

HOW TO INVEST IN CRYPTOCURRENCIES?

- Open an account on a crypto exchange platform
- Create a crypto wallet
- Fund your wallet
- Place buy orders
- Manage and safeguard

Recapitulation:

The future of cryptocurrency holds vast potential for disruption and innovation in the financial sector. While, cryptocurrencies offer advantages such as decentralization, securities, and accessibility. Investors must know the market's volatility and associated risks. Thus, it serves as a public record for all transactions throughout the world.

THE IMPACT OF E-COMMERCE ON TRADITIONAL RETAIL

The rise of e-commerce has significantly impacted traditional retail business, presenting both opportunities and challenges. Here are some key effects of e-commerce on Traditional Retail.

- Increasing Competition

Traditional retail business face intense competition from online retailers, e-commerce platforms and big box stores. These competitors often offer a wide range of products, competitive pricing and convenient shopping experiences, attracting customers away from traditional brick-and-mortar stores.

- Changing Consumer Behaviour

The shift in consumer behaviour towards online shopping and digital experiences has posed a significant challenge for traditional retail business. Today consumers increasingly prefer the convenience of shopping from their homes, comparing prices online and having products delivered at their doorstep.

- Comparing product options

E-commerce provides customers a wide range of alternatives while shopping. It gives customers the opportunity to checkout merchandise and simultaneously compare similar products on different websites.

- Changes in Supply Chain.

The rise of e-commerce has resulted in changes in the supply chain. Retailers have had to adapt to the increased demand for efficient and fast shopping, resulting in new logistics and fulfillment challenges for traditional retailers.

- Opportunities for Integration.

E-Commerce has also given traditional business opportunities for integration between online and offline channels. Traditional retailers have successfully developed omnichannel strategies allowing their customers to shop online and pickup products in store or order products online and return them (if required) at the physical store. To adapt to the changing retail landscape, traditional retailers must focus on creating a seamless omnichannel experience for customers, investing in e-commerce, offering in store pickup and returns, creating unique in store experiences, leveraging data analytics and partnering with e-commerce platforms.

J. Keerthana, XII D

KEY ELEMENTS OF M-COMMERCE

Lets take a closer look at how mobile commerce makes an impact across retail.

Mobile Shopping:

Users can browse e-commerce stores through a mobile optimized website or dedicated mobile app.

Mobile Payments:

Retailers accept multiple payment options, including online banking and mobile wallets such as apple pay, pay pal or google pay. Shoppers can also make contactless payments at an in-store POS using virtual debit cards or credit cards.

Location – based services:

Electronic commerce companies can provide location specific deals, discounts and promotions based on a user's device location.

Mobile Advertising:

Business can target users with personalized ads

and promotions based on their mobile behaviour and preferences.

Mobile Ticketing:

Users can purchase and store electronic tickets for events, travel and entertainment on their mobile devices.

In conclusion, mobile commerce has revolutionized the way we shop, bank and conduct transactions. As we look to the future, one thing is clear.

Mobile commerce is here to stay and will continue to shape the way we interact with commerce.

S. Joshni, XII D

THE ROLE OF ENTREPRENEURSHIP IN ECONOMIC DEVELOPMENT

Entrepreneurship is the process of creating and running a new business venture in order to generate profits. It is a crucial factor in driving economic growth and development in both developed and developing countries. Entrepreneurship activity helps in creating new jobs, fosters innovation and drives market competition, which ultimately benefits consumers. The role of entrepreneurship in economic development cannot be overstated.

1. Raising the standard of living
2. Creation of New Jobs.
3. Helps to eliminate poverty in local areas.
4. Helps with community development
5. Provides economic independence.
6. Benefits of new startups entering the market.
7. Encourages capital investment.
8. New entrants drive market innovation.
9. Optimal use of resources.
10. Increases per capita income (PCI) & Gross National Product (GNP)

These are some of the roles of Entrepreneurs in Economic Development.

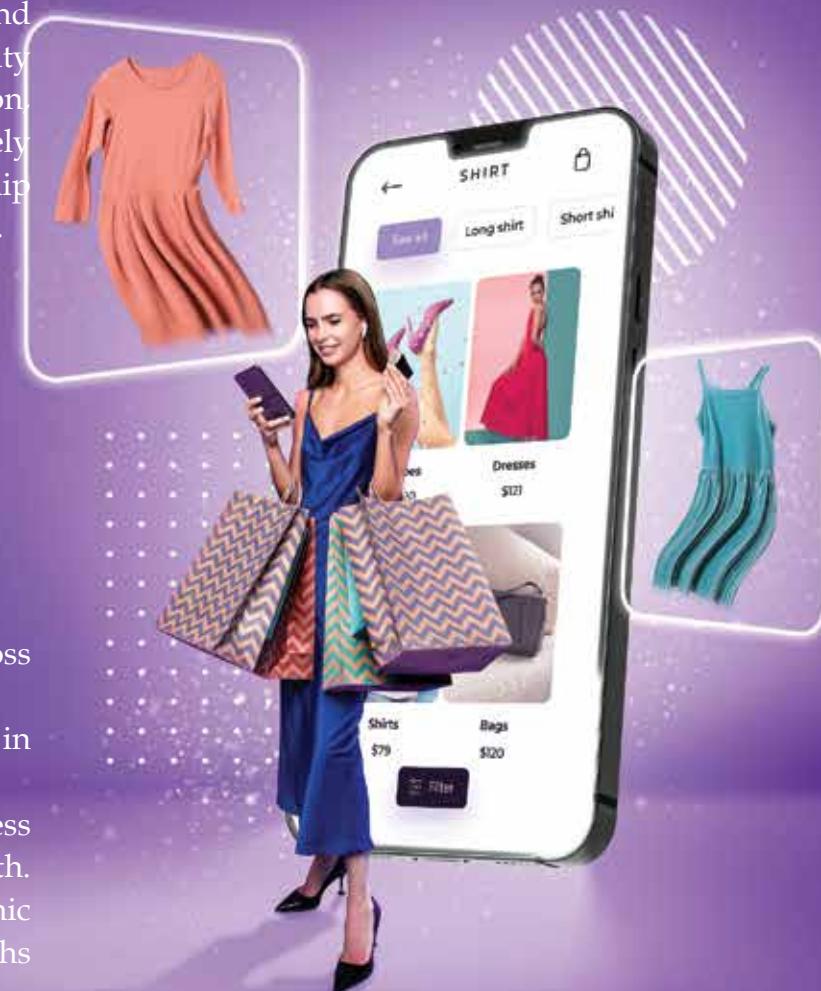

Entrepreneurs serve as the catalysts in the process of industrialization and economic growth. Technical progress alone cannot lead to economic development, unless technological breakthroughs are put to economic use by entrepreneurs.

The Entrepreneur is the key to the creation of new enterprises that energize the economy and rejuvenate the established enterprises that make up the economic structure.

The 10 Greatest Entrepreneurs

1. John D. Rockefeller
2. Andrew Carnegie
3. Thomas Edison
4. Henry Ford
5. Oprah Winfrey
6. Sam Walton
7. Charles Schwab
8. Tom Love
9. John Johnson
10. Steve Jobs

A. Celestena, XII D

CRYPTOGRAPHY

As data moves, its safety can be at risk. Do you know where your data travels or how exposed it might be? Cryptography is the process of hiding or coding information so that only the person a message was intended for can read it. The art of cryptography has been used to code messages for thousands of years and continues to be used in bank cards, computer passwords, and e-commerce. Cryptography ensures confidentiality by encrypting sent messages using an algorithm with a key only known to the sender and recipient. A common example of this is the messaging tool WhatsApp, which encrypts conversations between people to ensure they cannot be hacked or intercepted. Cryptography has four major goals: confidentiality, integrity, authentication, and nonrepudiation. Put another way, the goals are data privacy (confidential treatment), data authenticity (verified source), and data integrity (original and unaltered message). Cryptography also secures browsing, such as with virtual private networks (VPNs), which use encrypted tunnels, asymmetric encryption, and public and private shared keys.

Should your programs have a clock?
Some virus doesn't show, ask our
friendly doctor's Narton, MCAfee
is where to go.
Should you have taken all precautions?
then still you do not know
my heart will bleed for you
just to show, I do truly care
I will swallow-a-BANDAID, I will
clear that foul air, or better yet
pre'aps atech can HELP you. Find
different adware!

Glowing screen, humming core,
processing thoughts, and so much more,
Ones and zeroes, dancing fast,
creating worlds that forever last.
Glowing screen a wondrous sight,
Connecting worlds, day and night.
Bytes and bits, a digital dream,
Connecting worlds is only its theme.
Click and type, and see what's new,
My computer is fun, that's true!
I can draw and write, and even more,
My computer is my friend,
forever more! JAVA SCRIPT:

RETRIEVAL AUGMENTED GENERATION (RAG)

The basics of RAG:

Retrieval Augmented Generation (RAG) is a framework that integrates two distinct yet complementary AI methodologies: retrieval-based models and generative models.

Retrieval-Based Models: These models excel at fetching relevant information from a large corpus of data.

Generative Models: These models, often based on transformer architecture like GPT-3, are designed to generate coherent and contextually appropriate texts.

RAG combines these two approaches by first retrieving relevant documents or passages from a large dataset and then using this retrieved information to inform and enhance the generation of responses.

How RAG works:

The RAG framework typically involves the following steps:

1) Query Process:

When a query is received, the retrieval component of the RAG model searches a pre-indexed database to find the most relevant documents or passages.

2) Contextual Embedding:

The retrieved documents are then converted into embeddings, which are vector representations that capture the semantic meaning of the text.

3) Response Generation:

The generative model takes the original query along with the embedding of the retrieved documents to generate a response. This process ensures that the generated text is not only weren't but also enriched with accurate and relevant information.

Advantages of RAG:

1) Enhanced accuracy and relevance:

By leveraging both retrieval and generation, RAG ensures that responses are grounded in actual data, thereby enhancing their accuracy and relevance.

2) Improved contextual understanding RAG can handle complex queries more effectively by accessing a vast array of contextual information through retrieval.

3) Scalability:

The retrieval component enables RAG to scale effectively as it can draw upon extensive databases without compromising the quality of the generated responses.

Applications of RAG:

Knowledge Management Systems: RAG is highly effective in a knowledge management system, where it can retrieve and generate detailed responses based on a company's extensive documentation and knowledge base.

Content Generation: For content generation tasks, RAG can create articles, reports, and other textual content that are enriched with accurate information retrieved from relevant sources.

Educational Tools:

In educational tools, RAG can assist in generating informative and contextually rich content for students.

Example Workflow:

1) Data Ingestion:

Store a large corpus of documents in TiDB with vector embeddings for each document.

2) Query Processing:

When a query is received, use TiDSS' vector search to retrieve the semantically similar documents.

3) Embedding Generation:

Convert the retrieved documents into embeddings.

4) Response Generation:

Use a generation model to produce a response based on the query and the embedded documents of the retrieved documents.

Conclusion:

Retrieval Augmented Generation (RAG) represents a significant advancement in AI, combining the strengths of retrieval-based models and generative models to produce highly accurate, relevant, and contextually appropriate responses. As AI continues to evolve, frameworks like RAG will play a crucial role in enhancing the accuracy and effectiveness of AI-driven applications across various domains.

COMPUTER RIDDLES

1. I think and run but have no legs, and I am smarter than a hundred keys.
What am I?
2. You press my keys; I am not a piano. I help you create, from poems to your life's memo.
What am I?
3. I can show the world, but if it's on your desk, display your work and graphics that impress.
What am I?
4. I'm silent, but I click, I scroll up and down, and with me in your hand, you can navigate around.
What am I?
5. I'm the brain of the machine where all the thoughts process; without me, computer power would be much less.
What am I?
6. I'm your strange solution, not soft but hard. I remember all, both near and far.
What am I?
7. I'm your device short-term thought, helping our programs the you've
What am I?
8. I'm small and portable, a keeper of files; take me anywhere shore date for miles.
What am I?
9. I'm the unseen force, no wizardry, steering all operations in your machinery.
What am I?
10. Avas board of circuits with sockets and lines, I connect all your parts, and I do it just fine.
What am I?

5G TECHNOLOGY

What is 5G?

5G technology refers to the fifth generation of mobile network technology, which is designed to significantly improve wireless communication compared to previous generation (like 4G).

“5G unplugged: The Future of Fast”.

In today's digital world, speed is everything. We live in a world where instant access to information and seamless connectivity are not just conveniences but necessities.

“5G” Friend or Foe? Debunking Myths and concerns:

As 5G technology continues its global rollout, it promises to revolutionize the way we connect and communicate. With its faster speeds, lower latency and ability to support a massive number of devices 15G is set to transform industries from healthcare to entertainment.

The greatest of all myths is that it poses significant health risks. Concerns have been raised about the potential impact of increased radiation exposure from 5G infrastructure. However, numerous studies by health organizations including the World Health Organization (WHO) have found no evidence that 5G networks pose any harms to human health.

5G in the classroom: The New Wave of Learning:

One of the most significant benefits of 5G in the classroom is its ability to provide enhanced

connectivity and access to educational resources, with its high-speed data transfer capabilities. 5G can support seamless streaming of high-definition video content, enabling students to access lectures, documentaries, and other educational materials without interruptions.

Cool Applications of 5G:

- Smart Cities: With 5G, smart cities can deploy advanced surveillance systems that use high-definition cameras and sensors to monitor public spaces.
- Autonomous vehicles: Autonomous vehicles are equipped with a variety of sensors, including cameras, lidar, and radar. 5G can quickly process and integrate data from these sensors, helping vehicles to accurately detect and respond to their environment.

FACTS ABOUT COMPUTER

1. The first email was sent in 1971 by Ray Tomlinson, who also invented the “@” symbol as a way to address messages.
2. The first smartphone was the IBM Simon, released in 1994. It had a touchscreen display, email and even a game of Tetris!
3. The first computer mouse was made of wood and was invented by Douglas Engelbart in 1964.
4. The world's first computer virus, the “creeper” virus, was created in 1971 as an experiment to demonstrate the vulnerability of computer systems.
5. The popular coding language Java was originally called “Oak” but was later renamed to Java, after the coffee shop where the developers met.

TONGUE TWISTER

- How do you say "Green" in French
- 'Vert'
- What about "worm"?
- 'Ver'
- And "Towards"
- 'Vers'
- What about Glass?
- "Verre"

So how would you say

"Green worm goes towards a green glass"?

"Un ver vert v avers un verre vert".

J.B. Bernecia Jovlin, XI B

LA SAGESSE DE LA NATURE

Si nous pouvions entendre
La sagesse de la nature,
Ce que les abeilles savent
Et les pommes, les feuilles,
Les fleurs sur les arbres,
Nous n'aurions pas à reflechir autant
A comment vivre ensemble.
Nous serions, tout simplement
Nous saurions sans effort
Que un plus un, c'est bien trois
De forme humaine ou pas,
Un plus un, c'est bien trois
Et souvent plus encore.
Nous attendrions du soleil qu'il soit soleil
Et de l'arbre qu'il soit arbre.
Nous nous sentirions proches
De la vache, de la mouche, de papillon,
Du serpent et du lion,
De leau, du rocher et du pissenlit
Nous comprendrions que le vent
Est tout autant souffle de la Fecondation
Que force terrible de la destruction
Nous comprendrions que le vent
Est en meme temps force de destruction
Et souffle de Fecondation.

S. Merlin Epzibah, XII A

मेरी माँ

माँ तुम्हारी ममता से,
हमारी जिन्दगी है सजी ।

तुम्हारी धुआवों से,
हमारी सपने हैं जगी ।

तुम्हारी मोहब्बत मे,
हमे सुकून मिलता है ।

तुम्हारी गोद मे,
हमे आराम मिलता है ।

माँ तुम्हारी कुरबानी से,
हमारी जिन्दगी है बनी ।

तुम्हारी बातों से,
हमारी दिल है जागे ।

ANNUAL SPORTS MEET, 2024-2025

"A human activity involving physical exertion and skill as the primary focus of the activity, with elements of competition or social participation where rules and patterns of behavior governing the activity exist formally through organizations and is generally recognized as a sport"

The Annual Sports Meet of St. Vincent's Mat. Hr. Sec. School was held on August 2, 2024, at the Loyola College Sports Ground. The Sports Meet started at 7.30 am. Mr. Ukkrapandian, who was an Indian Volleyball Player and the Senior Manager of the Indian Overseas Bank, was the Chief Guest of the event. He was welcomed by our school band with the VIP call, followed by the March Past and Oath.

The students of SVS, who have achieved great success in various sports events, held the Olympic Torch.

The Sports Meet comprised various sports activities, including individual and team games. The Physical Education Teachers guided and encouraged the participants to have a healthy competition. The Overall Individual Trophy in each category was awarded to the respective participants, and the Overall House Championship was won by the Red House (De Paul House), and the trophies were given by our principal, Rev. Dr. Estheppan Thomas and our vice principal Rev. Fr. Sebastian.

The efforts of all the participants were appreciated, and they were encouraged to continue their sports activities. The Annual Sports Meet was a grand success, and it taught the students the values of teamwork, sportsmanship, and healthy competition.

Individual Championship

Juniors Boys	: Sumanraj, VIII A
Junior Girls	: G. Toshika, VI C
Senior Boys	: Paranthaman, X C
Senior Girls	: Dhidyna, X B
Super Senior Boys	: Akshay Sukumar - XII A
Super Senior Girls	: Ashwini, XII A

TOURNAMENT 2024

"Never Ever Give Up"

“True success is all about working towards meaningful goals and dreams”

The SVS Interschool Basketball Tournament for the year 2023 was held on October 26th and 27th October and featured an impressive display of skill and integrity among multiple schools. There were 12 schools that participated in the boys and girls category. The inauguration of the tournament was addressed by Rev. Fr. Tinto Njarekadan (Diocese of Irinjalakuda, Kerala). After the declaration, Rev. Fr. Tinto Njarekadan wished the players of all the teams.

“The Five S’s of sports training are: Stamina, Speed, Strength, Skill, and Spirit; but the greatest of these is Spirit.”

It was a tough competition. But the players were very energetic to face the healthy game with a bag full of positivity and fledged stamina.

The tournament concluded with the valedictory function. Mr. Bala Subramanian, physiotherapist, was the Chief Guest and presented a motivational speech to gear up the energy of the players. The **St. Vincent Trophy** (School Patron Saint) for Boys and **Fr. Antony Netikat Trophy** (School Founder) for girls were the two prestigious trophies that were awarded to the winning Teams. Our beloved Principal Rev. Dr. Estheppan Thomas, our Vice Principal Rev. Fr. Sebastian & Rev. Fr. Lithin also joined the Chief Guest to felicitate the title holders with awards and prizes.

“Anything is possible when you have the right people to support you”

All the credit goes to the Physical Education Department, which mentored the students by influencing them to play a good and healthy game. Also, credit goes to the teaching and non-teaching staff and to our dear Principal for their support.

Results

St. Vincent Trophy (Boys)

- Winners – St. Michael’s Academy
- Runners – St. Vincent’s Matric. Hr. Sec. School

An investiture ceremony is an important occasion where a school entrusts its upcoming leaders with certain roles and responsibilities. This prestigious ceremony was held on 26 June, 2024. A team of captains was ready to take up the duties delegated to them.

To begin this ceremony, our chief guest, Mr. Kirubanidhi, Inspector of Police, K3 Police Station Aminjikarai, our principal, Rev. Fr. Estheppan, and Vice-Principal, Rev. Fr. Sebastian, were given a warm welcome by the SVS band.

The newly elected SPL, Master R. Jeeva, ASPL Ms. Sandhya, sports captain, house captains, and vice captains took part in the oath-taking ceremony. The newly appointed council members pledged to uphold their duties with sincerity and serve their school and peers with dedication and commitment.

Mr. Kirubanidhi, Inspector of Police, gave a thought-provoking speech that ignited the minds and souls of our students.

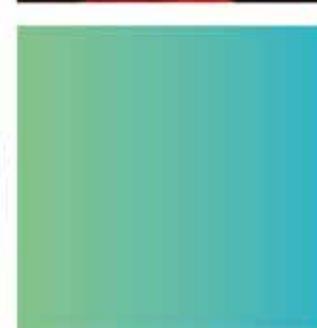

Our student council, instilled with the spirit of leadership and responsibility entrusted to them, moved forward to perform their duties with zeal.

Ms. Jeyanthi Christina

INAUGURATION OF LITERARY &
SERVICE UNITS 2024 - 2025

*The future depends on what we
do in the present"*

Inaugurations

Literary Association Report

"You can swim all day in the sea of knowledge and not wet". Literary club is committed to tapping the effective communication talent among the students. The clubs aim to develop analytical and creative thinking skills. It offers opportunities to appreciate different types of literature and increase their own literary skills. The literary club aims at not only refining the literary skills of the students but also developing in them logic and curiosity to know more and to instill in them the confidence to speak well.

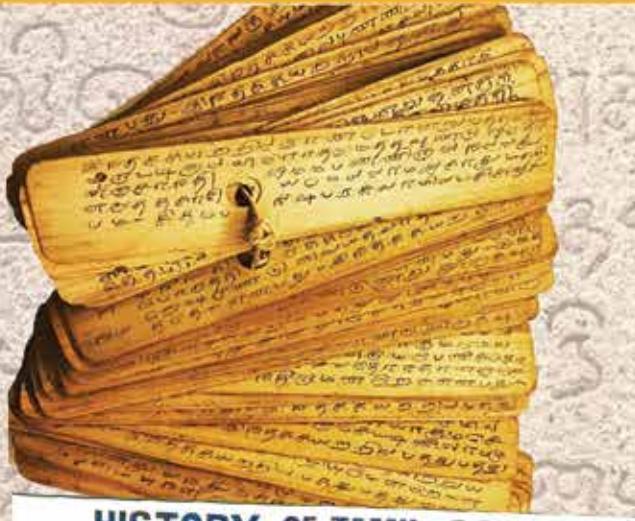

The inauguration of the literary association for this academic year was held on July 3, 2024. Major Gugamalathy A., Administrative Officer, NCC, Chennai, was the Chief Guest. The various clubs' presidents and secretaries were honoured with badges by the Chief Guest. She enlightened the students with a lecture on "The importance of leadership and communication skills among the students." The students from various clubs enacted a play in relation to their respective literary clubs.

Shakesperean English Literary Association

Vision: To improve the English knowledge among the students.

It provides a platform for students to express themselves freely and enhance their literary abilities accomplishing a standard with frequent activities and achievements. The SELA has grown into one of the successful associations of our school. SELA provides a platform to exercise and polish the existing skill in the language through participating in various competitions and other opportunities. The club conducted poetry writing, adzap, speech competitions. etc.; S. Priyadarshini of 11 C is the President and S. Latika Mary of 9 A is the secretary.

வீரமாழனிவர் முத்தமிழ் மன்றம்

சந்தத் தமிழில் தழைக்கும் - மிகு தாளத்து இசையின் முழக்கம் சிந்தை முழுதும் இனிக்கும் - செழும் தேன் - சேர் மலராய் மணக்கும் எம் வீரமாழனிவர் முத்தமிழ் மன்றம்.

இம் மன்றத்தில் ஒவ்வொரு மாதமும் பேச்சுப் போட்டி கட்டுரைப் போட்டி, கவிதைப் போட்டி, திருக்குறள் ஓப்புவித்தல் போட்டிகள் இனிதே நடைபெற்று வருகின்றன. இம் மன்றத்தின் தலைவராக 11ஆம் வகுப்பு ஆ பிரிவைச் சேர்ந்த தருண் என்ற மாணவனும் துணைத் தலைவியாக 9ஆம் வகுப்பு அ பிரிவைச் சேர்ந்த சங்கமித்ராவும் இம்மன்றத்தின் புகழ் மணக்க செயல்பட்டு வருகின்றனர்.

Ramunujam Maths Club

Mathematics Club is the powerful tool to remove mathematics phobia among students. It provides the students with opportunities to develop their explorative, creative, and inventive faculties. The club conducted various competitions like quizzes, math art, puzzles and riddles, etc., B.P. Brijilin Paul 11-B is the President and H. Jagath Sai of 9 B is the secretary.

Spectrum Science Club

The science club aims to promote science interest and engagement through challenging and mind-stretching tasks. The club aims to organize workshops, quizzes and exhibitions to inculcate students' knowledge and skills in the field of science. S. Monish Krishna of 1 1A is the president and R. Shruti of 9 A is the secretary.

Tim Berners IT Club

An IT club can help students develop skills and knowledge in information technology and prepare them for a future with information-enabled devices. The students can learn about the anatomy of a computer and current trends in IT. The club conducted a PowerPoint presentation, debate, and quiz. S.V. Andrea Merci of 11 A is the president and J. Chris Jowan Simon of 9 B is the secretary.

New Dawn Arts Club

The arts club provides a platform for the students to explore their creativity. It also gives opportunities and freedom to the students to try new things. The club conducted drawing, painting, and millet recipes competitions.

J. Keziah Princy of 11 A is the president and L. Harshikha of 9 B is the secretary.

The winners of various clubs were appreciated and awarded with trophies and certificates during the assembly by our beloved principal, Rev. Dr. Estheppan Thomas CM, every month.

I would like to thank all the students who, with their enthusiasm and energy, contributed to the activities of various literary associations.

I would like to thank our beloved Principal, Vice Principal and teachers.

The will to win, the desire to succeed, the urge to reach your full potential... these are the keys that will unlock the door to personal excellence.

Grand Rally on Awareness

There is always strength in numbers. The more individuals or organizations that you can rally to your cause. The better.
- Mark Shields

St. Vincent Peace League [SVPL] is a unique service unit, functioning in all Vincentian institutions established in 2010 to instill a far-reaching and deep-rooted sense of service among the students with a motto, "Peace, Charity, Harmony." This unit believes in charity as a supreme virtue and the great channel through the mercy of God in which it's passed on to mankind.

St. Vincent Peace League

"Giving is the greatest act of grace".

The object is to bring love and peace to society and try to help others. SVPL is a powerful platform for creating awareness about the sensitive issues that prevail in society. Respect, care, and empathy are the universal values. In the month of June, the SVPL unit conducted a meeting under the leadership of Sr. Molly Thomas for the in-charge teachers. Mrs. Vijayalaksmi was elected as the secretary for the SVPL unit. We decided to meet on the last Friday of every month. The SVPL meeting was held in the month of June. Gaarin Raj of IX-B was selected as president and "Moreen Sylvia" of VIII-B as secretary.

"Human actions become actions of God, when these are performed in Him and through Him."

- St. Vincent de Paul

Our SVPL members visited "Sai Shakti" home for elders and gave them some provisions they were in need of in June. SVPL students actively participated in the rally to create awareness on the topic "Healthy and clean city" in the month of July. The rally was inaugurated by Mr. Charles, the consultant for Solid Water Management Greater Chennai Corporation. As a mark of joy of sharing, we had called ten families who are under privileged from the locality who deserved to get provisions given by the students. Rev. Fr. Estheppan Thomas, the principal distributed the provisions.

"Great things are done by a series of small things brought together. Finally, the SVPL celebration of the year came to an end with the celebration of National Cleanliness Day. A message was given about the cleanliness, and the placards were taken by the students to insist the people about cleanliness. We extend our gratitude to our beloved Principal, Rev. Dr. Esthappan Thomas CM, and vice principal cum bursar Rev. Fr. Sebastian CM for their kind concern and constant support in the extension of the various programs.

"Helping others is one of the simplest ways to fill our lives with joy."

Sr. Molly Thomas

JOY OF GIVING

SCOUTS & GUIDES

Remember it is not what you have but what you give that brings happiness'

- LORD BADEN POWELL

The scout movement has an exquisite and intense history that has led to it becoming today's leading global youth movement. The most fundamental and primordial objective behind scouting is to contribute to the education of young people and to ensure that they lead a non-dependent life.

The inaugural function for the academic year 2024-2025 was held on 3.7.24. Major Gugamalathy A., Administrative officer, ITN Girls, Bn, NCC, Chennai, inaugurated the activities for the academic year.

The Presidents and the Secretaries, namely Briyona A (XI-A) and Anusha S (IX-C) for Guides and Mohammed Sulaimaan (X-C) and Alejandro Sajeeth Victoria I (X-C) for Scouts.

As Scouts and Guides are considered unspoken doctors, pertaining to it, a first aid workshop was held on 10.7.24 for all the scouts and guides.

The investiture ceremony for the troop of scouts and company of guides was held on 14th August 2024.

Promoting the statement "Cleaner and Greener India, today, for a better tomorrow," a rally on the theme 'Healthy and Clean City' led by the Scout troop was held on 26.7.24 that included all the service units of our school.

Mr. Charles C (Consultant- Solid Waste Management, Chennai Corporation) and Mr. Munisekar (Inspector of K3 Police Station Aminjikarai) ushered in the rally.

The first meeting for this academic year was held on 19.6.24. The weekly meeting for both scouts and guides is held every Wednesday so as to improve their efficiency.

The Tritiya Sopan Training Camp was held at the RKM Matric Hr. Sec. School, T. Nagar on August 30th and 31st.

7 Scouts and 11 Guides are appearing for the Rajyapuraskar Exam this year, which is considered to be one of the most prestigious examinations of the state.

A pioneering course for the scout troop to enhance their existing skills and performance was held on September 4, 2024.

The entire mission of the Scouts and Guides is to inculcate good values and discipline in every other individual and to do justice to the label of service unit. To standby the motto ‘Be prepared’, the Scouts and the Guides are never taken by surprise. He or she knows exactly what to do when anything unexpected happens.

Ultimately, we would like to surrender all our respect and courtesy to our principal, Rev. Dr. Estheppan Thomas CM, and vice principal, Rev. Fr. Sebastian CM. I would like to extend my special thanks to the South Chennai District Secretary,

Mr. Sarathi and also our District Commissioner , Mr. Puranthalan VJ, who put in place the plans and objectives for every year and for being our constant pillar of support throughout the year during various events. We would also like to extend our gratitude to the other officials of the South Chennai Bharath Scouts and Guides. Our deepest thanks to our Scout Masters, Mr. N. Nagendra Selvam and Mrs. Rubha Gabriel, and our Assistant Guide Captain Mrs. Deepa.

Ms.Kumari

ROAD SAFETY PATROL

"BE ALERT BEFORE IT HURT"

Road safety patrol aims to create awareness among the students regarding the prevention and reduction of road accidents. It also helps in grooming the students in road safety rules, uses of first aid, emergency services, self-defense, personality development, and service to society. The road safety patrol has a commitment to society, as the motto of the RSP is "We live to serve." The RSP scheme in our school teaches road discipline to our school students, road discipline who in turn educate their families and fellow citizens.

On July 3, 2024, Rev. Dr. Estheppan CM, along with the chief guest, A. Gugamalathy, Administrative Officer, NCC, Chennai, inaugurated the service units for the academic year 2024-2025. She gave away the badges to the newly elected president, Dilip Kumar R of Std. XI A, and secretary Jason Jerald of Std IX-B. The speech given by the Chief Guest was filled with inspirational words for the newly elected young leaders. The RSP cadets in our school help our students arrange the cycles on our campus in proper order and control the traffic.

On July 26, 2024, the RSP cadets joined the rally at St. Vincent's School, inaugurated by Charles, Waste Management Officer, to create self-awareness among the public. The students repeated the slogans and had relevant placards to create awareness.

On August 15, 2024, the 77th Independence Day was celebrated at our school campus with great regard in the presence of our Chief Guest, Mrs. P. Usha, Joint Registrar of Cooperatives Society, Chennai. We are thankful to our principal and vice- principal for their able guidance and encouragement to promote the RSP unit in our school. We also acknowledge the contributions of RSP coordinators and students to making this unit successful.

"Follow Traffic Rules, save your future"

CUBS AND BULBULS

**“AN INVALUABLE STEP IN CHARACTER TRAINING IS TO
PUT RESPONSIBILITY ON THE INDIVIDUAL”.**

CUBS & BULBULS: Nurturing young leaders. The cubs and bulbuls programme at our school for the classes (III to V) is a platform designed to instil self-discipline and a tender, thoughtful heart in our young students through a variety of engaging activities. The program aims to prepare our children for bigger tasks in life.

KEY OBJECTIVES: Develop essential life skills like teamwork, leadership, and problem solving. Foster a sense of discipline and independence. Prepare students for future challenges and responsibilities.

ACTIVITIES: Regular classes and activities are conducted every Thursday throughout the year.

In July, we organized a camp for our cubs and bulbuls. The camp was a blend of fun and learning through engaging activities like drawing competitions. Our students unleashed their artistic talents. We also had team games. The team games not only strengthened their physical abilities but also honed their collaborative spirit. Our students attended the prestigious Chathurtha Charan / Heerak Pankh exam and were selected for the Golden Arrow award, the highest national award for the cubs & bulbuls. The Cubs and Bulbuls program is an experiential learning to develop well-rounded students with strong character, leadership qualities, and a deep sense of social responsibility.

CONCLUSION:

Mahatma Gandhi said

Be the change you wish to see in the world “

Our cubs and bulbuls are indeed becoming catalysts for positive change.

Ms. Annapoorani

JUNIOR RED CROSS

"WITH EACH HELPING HAND, WE CAN BRING A BIG
CHANGE IN THE LIVES OF PEOPLE AROUND US"

The main objectives of the unit are to promote life and health by educating students on safety, primary health care, and healthy living.

This SVS JRC unit, after completing 23 years, has successfully leapt into another year with the supporting and encouraging hands of our principal Rev. Dr. Estheppan Thomas CM. On 14th June, we celebrated Blood Donation Day.

The inaugural function for the year 2024 was held on July 3rd and the chief guest for the day was Major Gugamalathy. The unit has the president, Merlin Hepzibah. S of std XII-A and the secretary is Pooja from IX-A and they promised to fulfill their duties with a true spirit of unity.

Various activities were conducted by the unit with the aim of fostering friendship and selfless service. The students took part in all the activities enthusiastically.

On 10th July, JRC conducted competition of arts and crafts aimed at raising awareness of health, service, and friendship. All the students of JRC actively took part in the event. The display of arts and crafts was seen by our beloved principal, Rev. Dr. Estheppan Thomas and well appreciated. The winners are Varshini of VIII-A, Deepika of VIII-C and Jeevana of IX-A.

On August 2nd, during the sports day, JRC students helped the injured players by giving first aid.

“
Birth is the start of life
Health is an art of life
Service is part of life.
”

On August 14th 2024, JRC students went on a hospital visit to the Siddha Medical Hospital, Anna Nagar. About 25 students participated in the trip that was guided by Dr. S. Dhanalakshmi and Mrs. Manju. The siddha Doctor Mrs. Saravana Devi taught the students about the uses of several medicine herbs.

On August 21st 2024, Geneva Convention Day was successfully celebrated.

The other JRC activities are,

1. Visit to JRC Head Office
2. One Day Trip
3. First Aid and Disaster Management
4. Human Rights Day
5. Organic Food Day
6. Orphanage Visit
7. JRC Day.

Our sincere gratitude to our beloved principal Rev. Fr. Dr. Estheppan Thomas CM, and vice principal Rev. Fr. Sebastian for extending their great support and wise guidance for the success of our service.

“PUBLIC SERVICE MUST BE MORE THAN DOING A JOB EFFICIENTLY AND HONESTLY”. It is a

complete dedication to the people and to the nation.

“THERE IS NOTHING STRONGER THAN THE HEART OF A VOLUNTEER”

Dr. S. Dhanalakshmi, Joint Convener
South Chennai Educational District.

JRC Head Office Visit

Our school JRC students were taken on an educational trip on 11th September. They visited the museum, JRC head office, blood donation camp, and physiotherapy centre. The students were excited and gained knowledge about first aid treatment and coaching. They also learned to make various types of herbal medicines. They were glad to be the

VILLAGE VISIT

On October 24, JRC students went for an educational trip to Kooram Village in Kanchipuram District. The farmers in the village gave us a warm welcome. They shared their views on agriculture, the use of microorganisms for plant growth, etc. They took us to their farm and showed us their fields. They prepared and served us good and delicious organic food that was grown in their fields. We also planted saplings and enjoyed the trip. All the students benefited and gained knowledge in growing plants. members of JRC at St. Vincent's School.

National Service Scheme

"Alone We can do so little; together we can do so much"
- Hellen Keller

The NSS helps students develop their overall personality, character, and social and civic responsibility. The inauguration of service units was held on 3rd July 2024 by Major A. Gugamalathy, Administrative Officer of NCC, Chennai. Badges were given to Alwin Christo of XI C as president and Naveen Pandi of XI B as secretary.

The motto of NSS is "Not me but you." This reflects NSS's philosophy of selfless service, democratic living, and consideration for others. On July 26th 2024, NSS students actively participated in the rally to create awareness on cleanliness among the public. The Chief Guest for the Rally was Mr. Charles, Consultant for Solid Waste Management, Greater Chennai Corporation. The NSS camp was conducted for the NSS students for the academic year 2024-2025 in the month of September at St. Vincent's Seminary Dharkast. This enabled the students to develop teamwork among them. The various NSS activities made the students develop leadership skills, render selfless service, and appreciate other people's points of view. We thank our principal, vice principal and all the teachers in charge of the unit for enabling the students to become better.

Ranjith Kumar S
(Programme Officer)

ECO CLUB

**“THE EARTH DOES NOT BELONG TO US.
WE BELONG TO THE EARTH”**

The Eco Club has been actively working towards making our school a more sustainable and environmentally friendly place. Our mission is “KEEP CLEAN AND KEEP GREEN” and to promote eco awareness among the students. SVS Eco Club was started in 2011. The Eco club is formed for the academic year 2024-2025 with 70 students from grades 6 to 9 and 7 teachers as in-charge. S. Aakash of 8 A is the president and P. Ashwanth of 8 A is the secretary of the Eco Club under the guidance of our principal, Rev. Dr. Estheppan Thomas CM and vice principal Rev. Fr. Sebastian CM.

ACTIVITIES

- ◆ Our school celebrated World Environment Day with great enthusiasm and a strong commitment to promoting environmental awareness. The celebration began with an inspiring speech delivered by Brijilin Paul. P.B. Our esteemed principal Rev. Dr. Estheppan Thomas, and vice principal Rev. Fr. Sebastian planted saplings in our school premises. This act symbolized our commitment to greening our surroundings and fostering a culture of environmental stewardship among students and staff. A special speech was delivered by Nikash. S of X-B focusing on the critical issue of deforestation.

◆ World Nature Conservation Day was celebrated on July 29th by delivering a speech. The saplings were planted by SPL and ASPL. The staff and students took oaths about the protection and conservation of the environment.

◆ A Seminar Competition on Pollution was conducted for the students of 5 to 9 on August 5th 2024. The Wealth Out of Waste competition was conducted on 21/11/24.

◆ As part of our ongoing efforts to enhance environmental education, the Eco Club has organized a one-day trip to Guindy Bio Diversity Park, located in the heart of Chennai. This park is a green oasis that offers a glimpse into the diverse FLORA AND FAUNA of the region. Upon arrival, the students were taken on a guided nature walk and observed a wide variety of Flora and Fauna, trees, shrubs, spotted several species of birds, butterflies, and small mammals.

The Eco Club has successfully fostered a deeper understanding and appreciation of environmental issues among students. Through various activities, we empowered our school community to take meaningful actions for a sustainable future. Under the guidance of our principal Rev. Dr. Estheppan

Thomas, we continue our mission with even greater enthusiasm and dedication, striving to make our school and the world a greener, healthier place for all.

Mrs. S. JAYALAKSHMI

RED RIBBON CLUB

**"YOU ARE FREE TO CHOOSE,
BUT YOU ARE NOT FREE
FROM THE CONSEQUENCE
OF YOUR CHOICE."**

Red Ribbon Club is a movement started by the Government of India in schools and colleges through which students spread awareness about HIV/AIDS. The

Red Ribbon is a symbol of both drug prevention and the fight against AIDS. The Red Ribbon Club on our SVS campus was established in 2002. The main purpose is to educate the volunteers about health science.

This academic year 2024-2025, M. Dhanushree of X A is selected as president and S. Harini of IX B as secretary. Nearly 30 students from Std VII to XII Std have enrolled as a Red Ribbon Club volunteer.

This year we started the activities with International Day of Yoga on 21/6/24. The chief guest, Mrs. MA Amba, a yoga therapist, gave a message on the importance of yoga. July 29th was observed as World Hepatitis Day. The following events are planned for the upcoming months. Observance of World Food Day on 15th October, Health Awareness Programme on 12th November, World Aids on Dec 1, etc.

Thank the Almighty God for successfully guiding us throughout the year. Special thanks to Rev. Dr. Estheppan CM and our vice principal Rev. Fr. Sebastian CM for their encouragement and active support.

"Refusing is a Better choice".

AKSHAYALAKSHMI. S. N

SVS CHOIR

SVS choir is a great open opportunity for students to sing for the glory of God and praise his most holy name through their gift of melodious voices. And our school also helps the students take their singing talent to the next level through continuous practice. So, the choir of SVS together sings the hymn for daily blessings in school assembly throughout the year to create a holistic atmosphere at school for students. The SVS choir also gives their various performances at various school events like the annual day, Christmas celebration, sports day, feast day celebrations, SVS Exuberanza, and many other important events.

At the beginning of every term, our school choir joins the congregation of the faithful and sings hymns for the celebration of the supper of the Lord. I would like to extend my gratitude to our beloved principal, Rev. Dr. Estheppan Thomas CM, and our vice principal, Rev. Fr. Sebastian CM, who have always been our source of encouragement, prayer support, and guidance.

"Make
a joyful noise to
the Lord, all the earth;
break forth into joyous song
and sing praises!"

Psalm 98:4

"I will sing to the Lord as
long as I live"
Psalm 104:33

S. Christy Sheeba

**"Music is life. That's
why our hearts
have BEATS".**

SVS BAND

"Music speaks what cannot be expressed, soothes the mind and gives it rest, heals the heart and makes it whole, and flows from heaven to the soul."

"Music produces a kind of pleasure which human nature cannot do without. Music is the language of the spirit. It opens the secret of life, bringing peace, where fail, music speaks."

Music once admitted to the soul becomes a sort of spirit and never dies. The school band participates and performs drills and parade, and symphonic orchestral recitals in the programs, which consist of students dressed in military-style uniforms. It is an excellent vehicle for teaching students a host of skills such as discipline, teamwork and the importance of following directions.

We would love to express our gratitude to our beloved principal Rev. Fr. Estheppan Thomas, CM, for his steadfast support and counsel for St. Vincent's School band. Music is an art that solaces and goes deep into our hearts. We, the members of the band are very grateful for the timely guidance and support rendered by our band master, Mr. Charles. We also extend our sincere thanks to our encouraging teaching and non-teaching faculty towards the development of the SVS band.

SV EXUBERANZA

SV EXUBERANZA

Intra School Cultural Competition (2024-25)

Sing to the lord a new song because he has done wonderful things! His own strong hand and his own holy arm have won the victory

-Psalms 98:1.

Our Lord has blessed us with a magnificent stage for the showcasing of the admirable talents of our students, which we annually commemorate as the SV Exuberanza intraschool cultural competition. Our management and staff aim for the holistic development of every student who sets foot on our campus. SV Exuberanza stands as a testimony to our hard work towards our students' development.

SVS has the culture of sorting the students into four

houses, which will be their home for the rest of the year, during which the students actively participate and compete in various cultural and sporting events. This inculcates values such as leadership, teamwork and cooperation. The students develop a feeling of oneness and a positive competitive spirit. They work hard and toil to bring laurels to their houses and sing praises in the years to come.

The SV Exuberanza was organised and inaugurated in our school on 25.10.2024 in the school auditorium. The chief guest MC ARAVINDH, Emcee/Entrepreneur hosted official world record event around the world, thrice, official event for Times of India, The Hindu etc., along with the Principal Rev. Dr. Estheppan CM and Vice principal Rev. Fr. Sebastian were welcomed with

the ceremonial beating of the band and escorted to the venue. The dignitaries on the dias gathered around the venue, which was opened by the chief guest to declare the SV EXBUERANZA INTRA SCHOOL CULTURAL COMPETITION open.

Various competitions like dance, singing, mime, and other arts and crafts events were conducted after the inaugurate ceremony. Around 400 students participated with a competitive spirit and enthusiasm.

The competitions clearly highlighted the true spirit of participation and efforts of each student, which was evident in the quality of their presentation. SVS makes an excellent platform for the children's participation and plays an integral part of school life. We believe that there are many things that cannot be taught except through experience.

The judges motivated the students' efforts and declared the winners. The overall trophy for SV Exuberanza 2024-25 was awarded to RED house with 695 points for their excellent display of their talents and values. The second

place was awarded to GREEN house with 670 points for wonderful competitive spirit. Finally, the third place was bagged by BLUE house with 600 points.

I would like to thank our Creator for his extensive blessings and immaculate guidance for the success of the events. I am exhilarated to express my gratitude to our principal for his mentorship; Vice Principal for his inspiration; our cultural team and staff for helping us organize the events and for their undying commitment; and the students for their participation and coordination.

"CREATIVITY IS THE GREATEST REBELLION IN EXISTENCE."

Jancy Rani A

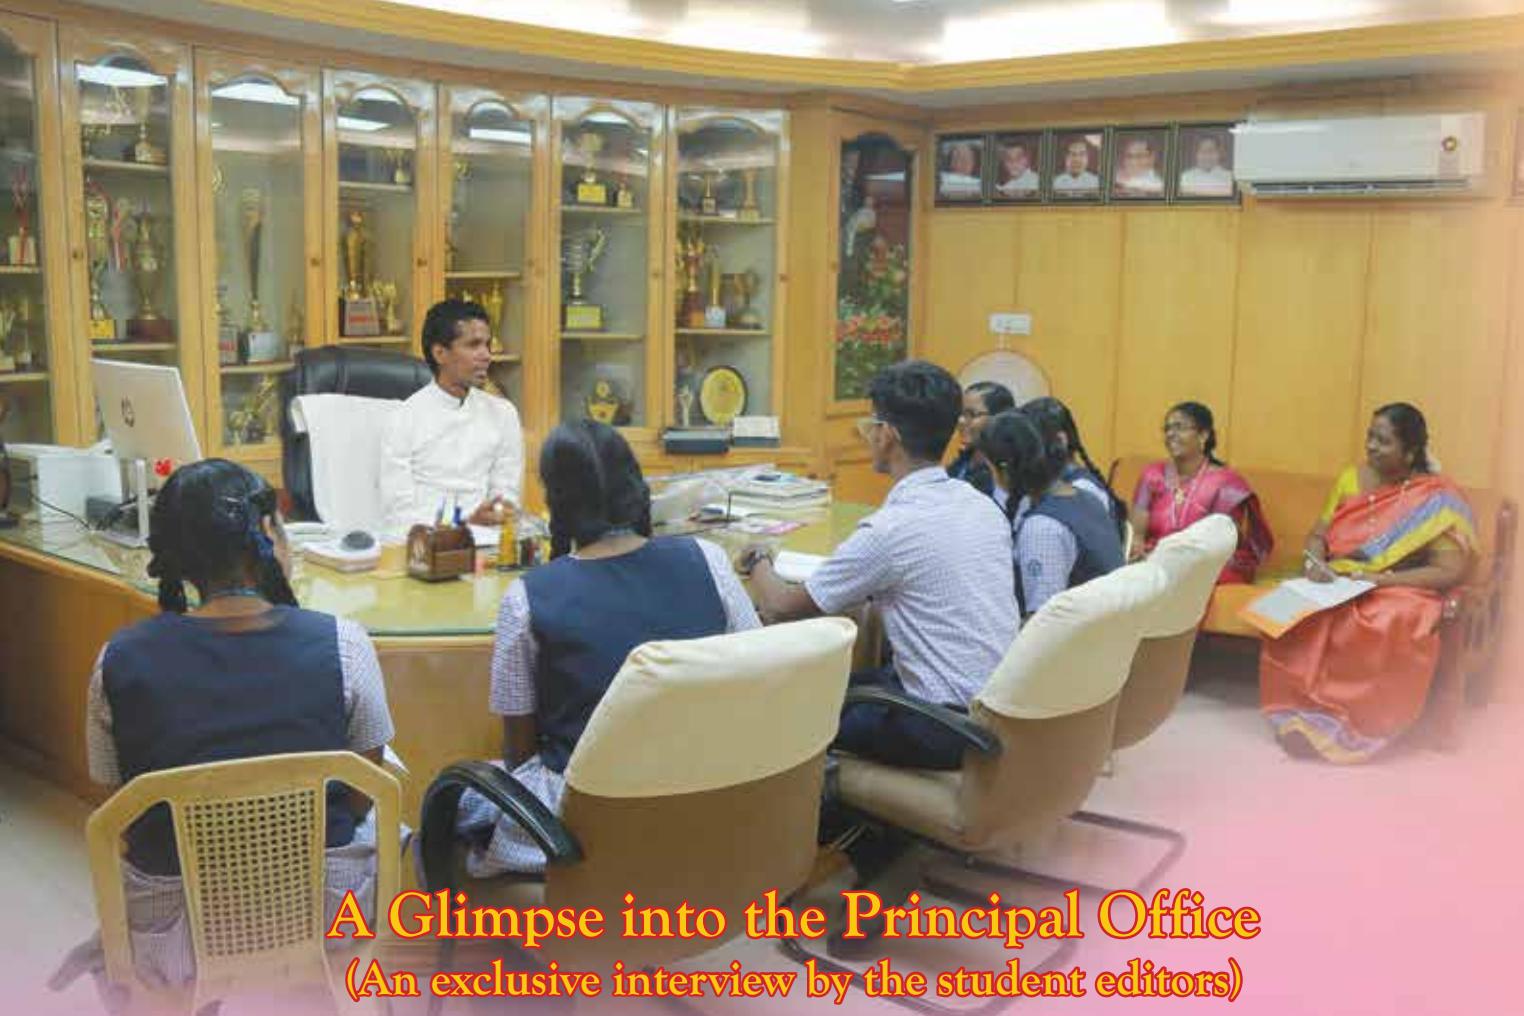

Happy
Birthday

A Glimpse into the Principal Office (An exclusive interview by the student editors)

On 21st November 2024, our student team had the privilege of sitting down with Rev. Dr. Estheppan Thomas, CM. Our esteemed school principal. The goal was to delve beyond the daily routine and explore the vision and insights that shape our schools leadership. Father generously shared his valuable time with them.

Brijilin: What inspired you to become a priest?

Principal: The Divine call to priesthood is always special for me. At the early stage of my life, I was introduced to many saints' lives which left a deep desire to serve God and humanity.

Asfiya: What is your favorite book? Author/Movie/TV show?

Principal: I cannot mention any specific book. I love reading the great sayings of renowned philosophers and theologians.

Apart from Jesus, the great author and teacher, I would love reading Vivekananda, especially his perspectives on human life.

My favorite movie is Gladiator. It leaves a message of an ordinary gladiator's rise to challenge the emperor and the societal norms. I encourage you all to watch that. I am not interested in watching any TV show.

Bernecia: If you could have any superpower what would it be?

Principal: Everyone is gifted with a special power to be the best version of oneself and commit to doing the best for others. A simple act of help for others itself is the fulfillment of the given strength from God.

Bernecia: Who do you think is a super hero?

Principal: Super heroes are seen everywhere. Responding to the real needs of others gives rise to super heroes. Let me recall an incident that occurred a couple of years ago. A little named Bridger Walker saved his three-year-old sister from a certain death. He had 90 stitches all over his body but saved his sisters from the vicious dog attack. I would call him the super hero! Chances and opportunities are everywhere to help us all the real heroes. It needs special courage to respond to the situations!

Poovizhal: What's your favourite hobby outside the school?

Principal: I play games, especially football, every weekend. I also listen to the latest songs and spend time in video editing.

Andrea: If you could have dinner with any special person, who would it be? It can be outside India also?

Principal: I know that it is an impossible dream (laughs); having a dinner with my favorite football player, Ronaldo, will be a dream coming true moment!

Jeeva: What are your goals for our school?

Principal: Every student must realize the God-given talent. I wish they sought guidance and blessings from teachers and elders on their pursuit to success. At the early stage itself, they must develop a curiosity to explore the world and set goals for the future.

Brijilin: What is the most rewarding part of being a principal?

Principal: It's a wonderful opportunity to be surrounded by the young, talented students. I always feel that I must play my role sincerely in shaping their future with care and support. And I am ready for that challenging role!

Asfiya: What advice would you give to the undisciplined students?

Principal: I do not wish to tag anyone as undisciplined. Every child needs correction with love and patience. Some of the students might require continuous accompaniment and personal talk from the side of the teachers in order to see a real change in them. It is always good to advise them privately, as it can bring a better change with a lasting effect.

Bernicia: What is your favorite food? Your favorite tourist spots?

Principal: I love seafood. Europe has been my favorite tourist place. I would love to visit Europe again!

Povizhal: How do you define success?

Principal: Doing one thing in the most perfect way possible can be defined as success. It will definitely make one feel happy and satisfied in the end!

Andrea: How can students make a perfect impact on students' communities?

Principal: Everyone has a specific role to play among the fellow students. The elder ones have the responsibility

of taking care of the younger ones. The younger ones in return must respect them and listen to their directives.

Brijilin: How do you handle challenges in difficult situations?

Principal: No challenge is too difficult to handle. All we need is a little patience with the challenging situations.

Jeeva: What are the common mistakes students make now a days?

Principal: The attitude of postponing the duty is the most common mistake I find among the students.

Jeeva: How do you think they can avoid it?

Principal: Students must do the given task on the very day in order to avoid confusion. Very often, those neglected duties get accumulated and become a burden in the end. They need to start doing it now!

Bernisha: What is the best advice you have ever received?

Principal: Respect all! Everything starts with respect. Peace and coexistence begin with the underlying principle of "Respect".

Jeeva: How do you stay connected with teachers and students at the same time?

Principal: It is my duty to stay connected with the teachers and students. The achievement of any goal, set by the school, is possible with the collaboration of students and teachers' communities.

Thank you, Father.

The interview reveals a passionate leader dedicated to creating a supportive and inclusive learning environment. We appreciate the Principal's time and candour, providing valuable insights into the school's vision and goals.

Tour to GOD's OWN Country Kochi, Kerala

Our evocative school trip is one of the finest memories we have. Let us take a moment to remember all the wonderful experiences we had, from the laughter and excitement to the new discoveries. The trip was filled with unforgettable memories.

200 students were divided into 8 groups, each consisting of 25 students, under a teacher.

All of us assembled at Chennai Central around 7.30 pm filled with excitement and with our neatly packed luggage. Our train Alleppey Express departed from the station at 08.45 pm, making a start to our trip with sounds of joy that lasted 12 hours. After lots and lots of discussions and dances and a few hours of sleep, we finally made our way to Ernakulam at 9.00am. From the railway station, we checked into the hotel by bus, and we were given rooms to freshen up. After that, we had our breakfast around 10.00 am.

Now begins the main part: a destination that seamlessly blends rich history and vibrant culture. Nestled in the southern Indian state of Kerala, Mattenchery island at

11.30am. This island offers a unique glimpse into the past while embracing the vibrancy of the present.

Then we went to Mattenchery Palace, also known as the Dutch Palace. This 16th-century building was originally constructed by the Portuguese and later renovated by the Dutch.

Wandering through Jewish town was like stepping back in time, and it was the best place to click pictures. The streets were lined up with antique shops, spice merchants, and cafes. The area's unique blend of architecture and aroma of spices created a sensory-rich experience.

And then we made our way to Valarpadam Church, which was located on Valarpadam Island. It was established in the 16th century by Portuguese missionaries. The church is a splendid example of Gothic revival architecture and intricate carvings. The façade is adorned with statues and religious motifs that capture the essence of its sacred mission.

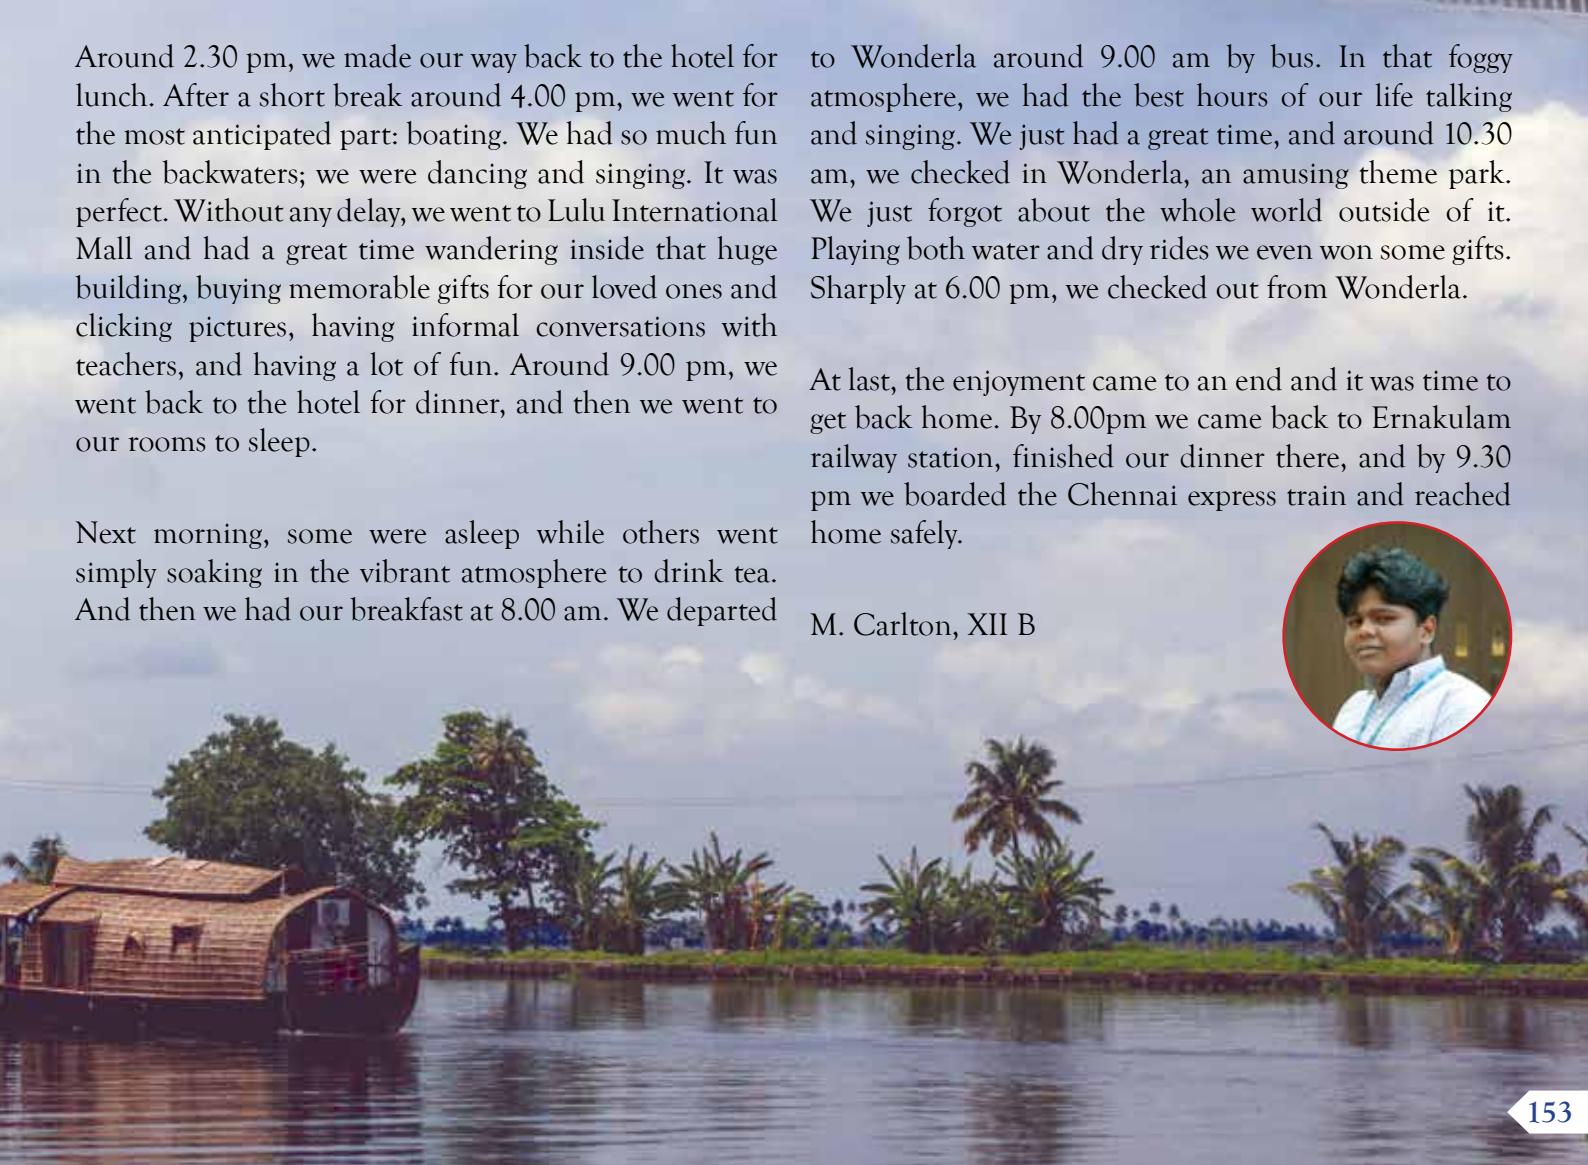

Around 2.30 pm, we made our way back to the hotel for lunch. After a short break around 4.00 pm, we went for the most anticipated part: boating. We had so much fun in the backwaters; we were dancing and singing. It was perfect. Without any delay, we went to Lulu International Mall and had a great time wandering inside that huge building, buying memorable gifts for our loved ones and clicking pictures, having informal conversations with teachers, and having a lot of fun. Around 9.00 pm, we went back to the hotel for dinner, and then we went to our rooms to sleep.

Next morning, some were asleep while others went simply soaking in the vibrant atmosphere to drink tea. And then we had our breakfast at 8.00 am. We departed

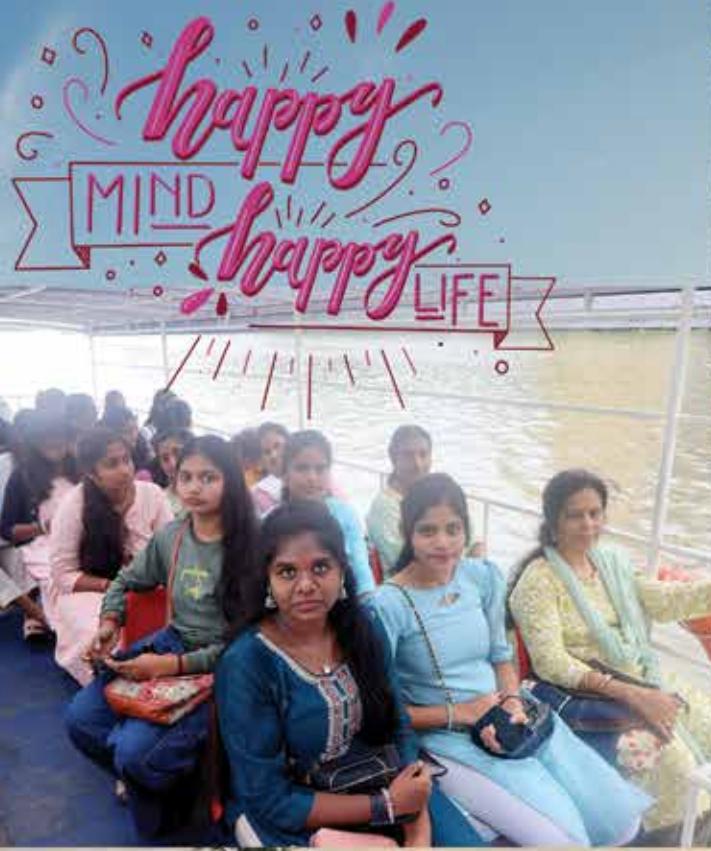

to Wonderla around 9.00 am by bus. In that foggy atmosphere, we had the best hours of our life talking and singing. We just had a great time, and around 10.30 am, we checked in Wonderla, an amusing theme park. We just forgot about the whole world outside of it. Playing both water and dry rides we even won some gifts. Sharply at 6.00 pm, we checked out from Wonderla.

At last, the enjoyment came to an end and it was time to get back home. By 8.00pm we came back to Ernakulam railway station, finished our dinner there, and by 9.30 pm we boarded the Chennai express train and reached home safely.

HAPPY-
Memorial
Day =

A Joyful Trip To Kerala Staff Tour

November 7th, 2024, marked the beginning of an unforgettable journey for SVS staff. As we departed from Central Chennai at 8:55 pm, excitement filled the air. Our 12-hour train ride was filled with laughter, sharing food, exploring compartments, and engaging in games.

The next day, at 9 am, we arrived at Ernakulam and checked into the Oak Breeze Hotel, conveniently located near the railway station. After refreshing and savoring breakfast, we boarded the luxurious "Brothers" bus bound for Alleppey. Our energetic teachers showcased their moves to the bus's lively beats.

The scenic route revealed numerous churches, solidifying Kerala's reputation as "God's Own Country." Upon arriving at Alleppey Boat Jetty, we embarked on a traditional Kerala houseboat with 10 cozy rooms. As we set sail, the gentle water lapping and warm sunshine created an instant sense of serenity.

The boat glided through tranquil backwaters, surrounded by lush greenery and vibrant village life. We marveled at the region's unique beauty, snapping memories and forgoing bonds.

The scenery shifted as we entered the wider waterways, where majestic lake views and distant hills created a dramatic backdrop. We spotted a variety of birdlife, including kingfishers, egrets, and herons.

The evening brought a mesmerizing sunset, painting the

sky with hues of orange and pink. We gathered on the boat's deck for the next ride in the steamboats. The ride was extremely excellent. We were sharing our views. As night fell, our houseboat drifted gently, carrying us into a peaceful slumber.

On November 9th, 2024, after a restful night, we bid farewell to our luxurious houseboat and set off by van to Kalady at Kottamam for the Silver Jubilee of Rev. Fr. Johny Koyikkara CM (Priestly Ordination). Our beloved former principal invited all the SVS staff along with our principal Rev. Dr. Estheppan Thomas CM, to join the grand celebration in the church auditorium. After the felicitation, our principal honoured Fr. Johny with a shawl and gave gifts. We took out group pics and videos.

His family members greeted us and gave a warm welcome to each of us. We felt at home. We had our delicious lunch. This was a memorable day with all the Vincentian Fathers and country cousins. Around 2:30 pm, we headed to Ernakulam, Southern Railway Station. By 4:45pm, we started our journey to Chennai. The next day, on 10th November, at 5:45am, we reached Central Station.

Our SVS staff tour concluded with unforgettable memories, strengthened bonds, and deep appreciation for Kerala's natural beauty.

SVS COMPASS RELEASE

PTA MEETING

தமிழாசிரியை திருமதி நிர்மலா

(01.06.1990 - 27.03.2024)

தமிழின் இனிமையை சொல்லில் வடிக்க முடியாது. அதுபோல் உங்கள் 32 வருட ஆசிரியர் பணியின் சேவையை இப்பள்ளி என்றுமே மறக்காது. எம் பள்ளியில் பணியாற்றிய ஒவ்வொரு நாளும் ஆசிரியர்களுக்கு மறக்க முடியாத நாளாகும்.

அன்னைத் தமிழை அடியோடு எடுத்து மணக்கும் மல்லிகைப் போன்ற சொற்களால். மாணவர்களை தமிழின் மீது அதிக பற்று உடையவர்களாகவும் தெளிவான கையெழுத்துகளில் எழுத கற்றுக் கொடுத்தவர். அவர்களை அன்புடனும் கண்டிப்புடனும் வழி நடத்தியவர்.

குடிசையாக இருந்த புனித வின்சென்ட் பள்ளியை கோபுரமாக மாற்றியவர். எங்கள் பள்ளியின் கவரில் உள்ள ஒவ்வொரு செங்கற்களும் தமிழாசிரியை நிர்மலா அவர்களின் செம்மையான வழித்தட்டதை பதியம் போட்டு வைத்திருக்கிறது. பதியம் போட்ட ஒவ்வொரு கிளைகளும் இன்று செடியாக. கொடியாக. மரமாக வளர்ந்து பூமியின் மேல் எங்கும் வாசம் வீசிக்கொண்டு இருக்கிறது. ஒவ்வொரு மாணவ மாணவிகளின் கற்றல் திறனையும்: கற்பனை ஆற்றலையும்: கடல்போல பெருகச் செய்தவர். கண்ணுக்கு காட்சியையும் சிந்தைக்கு கருத்தினையும் கலைத் திறனோடு நீங்கள் கற்பித்த பாடங்கள் மாணவர்களின் கற்றல் திறனை படைப்பாற்றலாக மாற்றுகின்றன.

இயக்கமே உலகம் நிலைத்திருப்பதற்கான அடிப்படை. அதுபோல் எங்கள் மாணவக் கண்மணிகள் பல்வேறு துறைகளில் இன்று காலு ஸ்ரி நிற்பதற்கு இயக்கமாக இருந்தவர் தமிழாசிரியை நிர்மலா அவர்கள். செல்லேர் உழவனாக. சிந்தனை விதையைத் தாவி. மடைமக்களை பறித்து. தத்துவ நீர் பாய்ச்சி. அறம் என்னும் கதிர் அறுப்பவராக திகழ்ந்தவர் ஆசிரியை நிர்மலா. அவர்களின் பணியை எங்கள் பள்ளி என்றும் மறக்காது.

நாளுக்கு ஒருமுறை மலர்வது சண்பகம். ஆண்டுக்கு ஒருமுறை மலர்வது பிரம்ம கமலம். பண்ணிரண்டு ஆண்டுகளுக்கு ஒருமுறை மலர்வது குறிஞ்சி. தலைமுறைக்கு ஒருமுறை மட்டுமே மலர்வது முங்கில் நம் தலைமுறைக்கு ஒரு முறை பிறப்பவர்கள் ஞானிகள். அதுபோல் எங்கள் பள்ளிக்கு வந்த வாடாமல் தமிழாசிரியை நிர்மலா அவர்கள்.

கற்றவர் வழி அரசு செல்லும் என்கிறது சங்க இலக்கியம். தோண்டும் அளவு ஊறும் நீர்போல் கற்கும் அளவு அறிவு சுரக்கும் என்கிறது திருக்குறள். அதுபோல் எங்கள் தமிழாசிரியை பூக்களை நாடி சென்று தேன் பருகும் வண்டுகளைப் போல. நூல்களை நாடிச் சென்று அறிவைப் பெறுவது போன்று எங்கள் பள்ளி மாணவர்களுக்கு அறிவுத் தேடலை உருவாக்கியவர் தமிழாசிரியை ஆசிரியை நிர்மலா அவர்கள். தம் தமிழ்ப்பணியினை செவ்வனே செய்து 27.03.2024 அன்று நம் பள்ளியிலிருந்து பணிழெய் பெற்றார்கள். அவர்களின் புகழ் என்றென்றும் செழிக்க எம் பள்ளியின் சார்பில் வாழ்த்துகிறோம்.

திருமதி சாந்தி

(2022 - 2024)

ஒடுடி வாழ்ந்த இன்பமெல்லாம் எத்தனை கோடி கொடுத்தாலும் கிடைப்பதில்லை

என்ற வாக்கிற்கேற்ப இப்புனித வின்சென்ட் பள்ளியில் தூய்மை பணியினை ஒரு தூயயனி. அறப்பணி என்பதற்கேற்ப 22 வருடங்கள் தூய்மை பணியாற்றினார். இவர்கள் ஓய்யமல் உழைக்கும் உழைப்பாளி. உலகத்தின் பிறப்புகளின் மேன்மை. இவர் இப்பள்ளியில் ஆற்றிய தூய்மை பணி ஒரு ஒப்பற் பணி. பள்ளியையும் தூய்மையாக்கி. மாணவ கண்மணிகளையும் கண்மணி போன்று காத்தவர்கள். குழந்தையும் தெய்வமும் ஒன்று என்று சொல்லுவார்கள். அந்த கள்ளம் கபடமற்ற மழைகள்களின் பிஞ்சு கரம் பிடித்து கண்காணித்து வழிநடத்துவது அவர்களின் மனங்கவர்ந்த பணியாகும்.

புனித வின்சென்ட் பள்ளியின் தூய்மை பணியாளர்களுக்கு விழுதாகவும் இருந்தவர். தூய்மை. பொறுமை. விடாழுயற்சி இந்த மூன்று நற்குணங்களுடன் அன்பும் சேர்ந்ததினால் இப்பள்ளி அவர்களுக்கு சொர்க்கமாகிவிட்டது. தூய்மையும் வாய்மையும் ஒன்றினைஞ்து இருந்தால் தூய்மை வரும். அந்த தூய்மை உணர்வுடன் நம்பள்ளி மாணவர்களை காத்தவர்கள் சாந்தி அம்மா.

புனித வின்சென்ட் பள்ளியின் விழுதென உறவுகள் அவர்களுடன் இருக்க நன்றென மற்ற பணியாளர்கள் உடன் நடக்க வளமும் நலமும் கூடியிருக்க கைத்தலம் பற்றியவர் கண்டு உவக்க என்றுமே சாந்தி அம்மா அவர்கள் இறையருள் பெற்று இனிவரும் காலங்கள் வளமாகவும் நலமாகவும் சிறகக் வாழ்த்துகின்றோம்.

தூய்மையே தேசத்தின் எதிர்காலம் அந்த தூய்மை பணியினை செவ்வனே முடித்து 04.07.2024 அன்று நம்பள்ளியில் இருந்து பணிழெய் பெற்றார்கள். அவர்கள் வாழ்வு சிறப்பாக அமைய நம்பள்ளியின் சார்பாக எல்லாம் வல்ல இறைவனை வேண்டுகிறோம்.

Happy Retirement

Echoes of Gratitude.....

Gratitude is the healthiest of all human emotions

The more you express gratitude for what you have

the more likely you will have even more to express gratitude for

Thankfulness is the very best insurance against dissatisfaction

Appreciation is a powerful motivator

Recognition is the greatest motivator

Our pillar of support

Dear Principal Rev Dr. Estheppan with his flame of positivity and his enthusiasm energized us through...

A big acclaim, dear teachers, for your dedication in preparing this magazine.

The blooming buds of

St. Vincents deserve high praise for your exemplary contribution.

Thank you all...

Praises to the Almighty.
